SIDS Sudden infant and early childhood death Jhodie R. Duncan,Roger W. Byard,2018-03-31 This volume covers aspects of sudden infant and early childhood death, ranging from issues with parental grief, to the most recent theories of brainstem neurotransmitters. It also deals with the changes that have occurred over time with the definitions of SIDS (sudden infant death syndrome), SUDI (sudden unexpected death in infancy) and SUDIC (sudden unexpected death in childhood). The text will be indispensable for SIDS researchers, SIDS organisations, paediatric pathologists, forensic pathologists, paediatricians and families, in addition to residents in training programs that involve paediatrics. It will also be of use to other physicians, lawyers and law enforcement officials who deal with these cases, and should be a useful addition to all medical examiner/forensic, paediatric and pathology departments, hospital and university libraries on a global scale. Given the marked changes that have occurred in the epidemiology and understanding of SIDS and sudden death in the very young over the past decade, a text such as this is very timely and is also urgently needed.

*Special Religious Education in Australia and its Value to Contemporary Society* Zehavit Gross, Suzanne D. Rutland, 2021-02-22 This book explores the advantages of and challenges concerning Special Religious Education (SRE) in multicultural Australia and argues for the need for General Religious Education (GRE) as well. Through the lens of the most recent scholarship, and drawing on an in-depth qualitative study and specific case studies, the book examines the current debate on the role of religious education within government schools. It addresses key concepts of values education, spirituality, health and wellbeing, and cultural and religious identity. It analyses why it is important to retain SRE, together with GRE, as government policy. It explores highly relevant, controversial and contested issues regarding SRE, including the 30% of Australia's population who declare themselves as having "no religion", and brings fresh insights to the table. While secularization has increased in both the national and international spheres, there has also been an increase in fundamentalism within religious beliefs. Events such as the September 11 terror attacks and the more recent mass shootings by white supremacists and eco-fascists in Christchurch, New Zealand, and Pittsburgh and San Diego in the USA are reminders that religion is still a major actor in the twenty-first century. This poses new challenges for the relationship between church and state, and demonstrates the need to revisit the role of religious education within government schools.

While the importance of GRE is generally acknowledged, SRE has increasingly come under attack by some researchers and teacher and parent bodies as being inappropriate and contradictory to the values of the postmodern world. On the other hand, the key stakeholders from all the faith traditions in Australia wish to retain the SRE classes in government schools. The book addresses this burning issue, and shows that it is relevant not only for Australia but also globally.
