Visual Activism in the 21st Century Stephanie Hartle, Darcy White, 2022-07-28 The world is in crisis, bringing activists and protesters onto the streets and into the public eye. More than ever, activism relies on spectacle and visibility in order to be noticed in the era of globalized capitalism and networked media. At the same time, a growing number of artists employ creative strategies to critique the establishment, act in resistance, and demand change. Visual activism of this kind is not new, but it is rapidly evolving. This anthology presents 16 case-studies of visual activism from across the globe, providing an up-to-date picture of the impact of contemporary visual and art activism, and combining a scholarly interrogation of visual activism with an examination of how it works in practice. The case studies address a wide range of issues including human rights abuses; state violence; gender and sexuality; racism; migration; and climate breakdown. They examine a range of approaches from playful carnivalesque parades to extreme practices such as 'lip-sewing', and are drawn from a wide range of international contexts - from Europe and the US, to Iran, India, Pakistan, Tunisia, and China. This diverse scope enables readers to consider examples comparatively - noticing emerging trends and key differences to reveal how geopolitical and cultural factors play an important role in shaping activist practices. This rich and timely collection provides a fresh perspective on the possibilities, limitations and politics of visual activism, as activists, artists, and curators respond to the changing world around them in this most uncertain of times.

Geared toward students and general readers, this accessibly written book covers such topics as the link between social media and body image, the psychological affects of social media use, online conversations about sexual assault, corporate use of social media data, political campaigning through social media, fan tweeting during television shows, and crisis communication through social media. Readers will also gain insights into the range of serious problems related to social media, including privacy concerns, social media addiction, social media hoaxes and scams, the pressure to project an ideal self, the curation of content presented on social media, cyberbullying, sexting, Facebook depression and envy, online shaming, and the impact of social media use on communication skills.

Media Moms & Digital Dads Yalda T Uhls,2016-10-04 Is social media ruining our kids? How much Internet activity is too much? What do FOMO (Fear of Missing Out), sexting, and selfies mean for teens? Are you curious about what research says about how media and technology are affecting childhood? Supported by academic research focused on technology, *Media Moms & Digital Dads* breaks down complex issues in a friendly, accessible fashion, making it a highly useful and, ultimately, reassuring read for anyone who worries about the impact that media might be having on young minds. Each chapter delves into a different issue related to kids and media so parents can easily find their particular issue of concern. Dr. Uhls ends each chapter with quick takeaways, in the form of tips and guidance for parents. Dr. Uhls' expertise as a former Hollywood film executive and as a current expert on child development and the media gives her a unique and important perspective. As a trained scientist she understands the myriad studies conducted by researchers, and as a mom of digital teens, she knows what actually works and can relate to the reality of being a parent in the 21st century. Dr. Uhls also describes the primary research she conducted at UCLA, including whether extensive screen time impacts non-verbal emotional understanding, which has been covered in the *New York Times*, *Time* magazine, and on National Public Radio. There are few more important issues for parents today than helping children safely navigate the digital world in which we live, a world that provides immense opportunity for learning and connecting yet also puts kids in a position to make mistakes and even cause harm. Knowing what the facts are and when and how to get involved is perhaps one of the most challenging aspects of modern parenting. *Media Moms & Digital Dads* offers parents reassuring and fact-based guidance on how best to manage screens and media for their children.

Boundary Images Giselle Beiguelman,Melody Devries,Winnie Soon,Magdalena Tyzlik-Carver,2023-10-24 How are images made, and how should we understand their limits, capacities, and forces in digital media? While functioning as representations or mediations of the political, images also act through the technologies and social processes that they claim only to represent. In both capacities, images can be innovative, but they can also reproduce harmful phenomena such as racism, misogyny, and conspiracy. *Boundary Images* investigates the political, material, and visual work that images do to cross and blur the boundaries between the technological and biological and between humans, machines, and nature. Exploring the limits of the visual and beyond what can be seen, *Boundary Images* posits these boundaries as starting points for the production of new and radically different ways of knowing about the world.

Everything, All the Time, Everywhere Stuart Jeffries,2022-09-27 A radical new history of a dangerous idea Post-Modernity is the creative destruction that has shattered our present times into fragments. It dynamited modernism which had dominated the western world for most of the 20th century. Post-modernism stood for everything modernism rejected: fun, exuberance, irresponsibility. But beneath its glitzy surface, post-modernism had a dirty secret: it was the fig leaf for a rapacious new kind of capitalism. It was also the forcing ground of the 'post truth', by means of which western values got turned upside down. But where do these ideas come from and how have they impacted on the world? In his brilliant history of a dangerous idea, Stuart Jeffries tells a narrative that starts in the early 1970s and continue to today. He tells this history through a riotous gallery that includes David Bowie, the Ipod, Frederic Jameson, the demolition of Pruitt-Igoe, Madonna, Post-Fordism, Jeff Koon's 'Rabbit', Deleuze and Guattari, the Nixon Shock, The Bowery series, Judith Butler, Las Vegas, Margaret Thatcher, Grand Master Flash, I Love Dick, the RAND Corporation, the Sex Pistols, Princess Diana, the Musee D'Orsay, Grand Theft Auto, Perry Anderson, Netflix, 9/11 We are today scarcely capable of conceiving politics as a communal activity because we have become habituated to being consumers rather than citizens. Politicians treat us as consumers to whom they must deliver. Can we do anything else than suffer from buyer's remorse?

The New Chameleons Michael R. Solomon,2021-02-03 WINNER: NYC Big Book Award 2021 - Marketing & PR Consumers are changing but the marketing categories used to identify them have not. Engage with this new generation of consumers who increasingly take for granted that products and advertising will blend their multiple brand identities rather than market to them as a specific subculture. Male or female, work or play, online or offline. These and other market categories are no longer relevant as modern consumers defy traditional boundaries and identify as members of multiple subcultures. *The New Chameleons* reveals how to engage with this new generation and how to stand out among the competition. Global consumer behavior expert Michael R. Solomon directs marketers to move beyond their traditional categories and communicate with consumers as individuals rather than as a market segment. He explains how traditional marketing is based on the assumption of boundaries between us and them, the individual and the collective, producer and consumer, work and play, humans vs. computers, and editorial vs. commercial. He then shows how those boundaries are blurring: people identify with members of multiple subcultures; individuals seek collective advice before making a purchase;

consumers no longer distinguish between purchases online or in-store; consumer-generated content becomes the norm; gender identity is fluid; gamification strategies turn work into play; and identity marketing becomes more popular. Combining history, data, experience and examples, The New Chameleons is written for every marketer (or reader) who wants to offer products and services that resonate with consumers now and in the future.
