James May

*And On That Bombshell* Richard Porter, 2015-10-22 I was Top Gear's script editor for 13 years and all 22 series. I basically used to check spelling and think of stupid gags about The Stig. I also got to hang around with Jeremy Clarkson, Richard Hammond and James May. It didn't feel like something you should get paid for. From the disastrous pilot show of 2002 to the sudden and unexpected ending in 2015, working on Top Gear was quite a rollercoaster ride. We crossed continents, we made space ships, we bobbed across the world's busiest shipping lane in a pick-up truck. We also got chased by an angry mob, repeatedly sparked fury in newspapers, and almost killed one of our presenters. I realised that I had quite a few stories to tell from behind the scenes on the show. I remembered whose daft idea it was to get a dog. I recalled the willfully stupid way in which we decorated our horrible office. I had a sudden flashback to the time a Bolivian drug lord threatened to kill us. I decided I should write down some of these stories. So I have. I hope you like them. And now, a quote from James May: 'Richard Porter has asked me to write a quote for his new book about the ancient history of Top Gear. But this is a ridiculous request. How can one write a quote? Surely, by definition, a quote must be extracted from a greater body of writing, for the purpose of illustrating or supporting a point in an unrelated work. I cannot write a quote any more than I could film an out-take. 'Porter, like Athens, has lost his marbles.'

Top Gear: The Alternative Highway Code Ministry of Top Gear, 2012-06-30 As everyone knows, there are three ways of doing things. The right way, the wrong way and the Top Gear way. Although, on reflection, that's usually just the wrong way, but faster and with more shouting. Anyway, the good news is that this third way of doing things can be applied to almost anything, and that includes motoring in general. All you need is the right guidance, which is where the brand new Top Gear Alternative Highway Code comes in. Top Gear's Alternative Highway Code will show you how to bring the ambitious but rubbish philosophies of the world's most popular TV programme to your driving, containing advice on general motoring, as well as specific tips on how to deal with common eventualities like a rapidly sinking amphibious camper van, a caravan airship that's just crashed into a small bush, or a stupid home-made limousine that's snapped in half while transporting a top celebrity to an awards ceremony. Road users should not leave home without it.

*The Top Gear Story - The 100% Unofficial Story of the Most Famous Car Show... In The World* Martin Roach, 2012-05-25 From humble beginnings as a 1970s motoring show, Top Gear has gone on to achieve diesel-powered world domination. After Clarkson and producer Andy Wilman successfully pitched a new format to BBC bosses, Top Gear returned to become the irreverent, funny and often controversial show we now know and love. The Star in a Reasonably Priced Car, the Cool Wall and Power Laps by the mysterious Stig have all become staples of Britain's favourite Sunday evening entertainment. Recent series have been defined by their madcap challenges such as driving across Africa in clapped-out bangers - with predictably hilarious results. However, the show's most shocking moment came in 2006, when Hammond suffered serious head injuries while driving a Vampire turbojet drag racing car at over 300mph. Clarkson, Hammond and May; they are the politically-incorrect-joking, stone-washed-denim-wearing, bloke-hero trio for the modern(ish) age. This brilliant, detailed book is fitting tribute to the show, its presenters and its most memorable moments.

**Diddly Squat** Jeremy Clarkson, 2021-11-11 Pull on your wellies, grab your flat cap and join Jeremy Clarkson in this hilarious and fascinating behind-the-scenes look at the infamous Diddly Squat Farm THE NO. 1 SUNDAY TIMES BESTSELLER 'Brilliant . . . laugh-out-loud' Daily Telegraph 'Outrageously funny . . . will have you in stitches' Time Out \_\_\_\_\_ Welcome to Clarkson's farm. It's always had a nice ring to it. Jeremy just never thought that one day his actual job would be 'a farmer'. And, sadly, it doesn't mean he's any good at it. From buying the wrong tractor (Lamborghini, since you ask . . .) to formation combine harvesting, getting tied-up in knots of red tape to chasing viciously athletic cows, our hero soon learns that enthusiasm alone might not be enough. Jeremy may never succeed in becoming master of his land, but, as he's discovering, the fun lies in the trying . . . \_\_\_\_\_ 'Very funny . . . I cracked up laughing on the tube' Evening Standard Praise for Clarkson's Farm: 'The best thing Clarkson's done . . . it pains me to say this' GUARDIAN 'Shockingly hopeful' INDEPENDENT 'Even the most committed Clarkson haters will find him likeable here' TELEGRAPH 'Quite lovely' THE TIMES

**The Top Gear Guide to Britain** Richard Porter, 2013-11-01 For over ten years, Top Gear has been travelling all over Britain in the course of making the world's best programme about cars, driving, and three men in smart-casual clothes shouting at each other. So, who better to assemble a guide to Britain itself with all its glories, quirks and multiple words for bread rolls? This book is not only a guide for outsiders; it is an invaluable reference manual for Britons themselves, like a mirror held up to our very souls.\* Join us then, as we travel from A-Z cataloguing and making moderately flippant remarks about every aspect of life and living in the best country in the world after New Zealand, Denmark, probably Canada and some bits of France. \*Although in this case, a mirror that has been dropped and then run over by a small lorry but don't worry, some bits of it still just about work.

**Top Gear Ultimate Supercars** Jason Barlow, 2019-10-17 Guaranteed to rev the engines of car fans everywhere. With ever-increasing power outputs, radical new designs, and eye-popping price tags, this book is a celebration of the supercar in all its fabulous glory. **Off-Road with Clarkson, Hammond and May** Phillipa Sage, 2021-05-13 'Amazing adventures. Apparently I was there.' Richard Hammond For over 12 years Phillipa Sage worked alongside Jeremy Clarkson, Richard Hammond and James May as their PA, gofer, and fixer where she saw the boys at

their best and, hilariously, at their worst. A closet petrol head, Phillipa started working in the motor industry on live events over 20 years ago and first worked with Jeremy Clarkson in 1997. She proved to be a loyal, trusted friend and colleague to all the presenters—from back in the beginning with Tiff Needell, Vicki Butler-Henderson and Quentin Wilson—to the now infamous trio of Clarkson, Hammond and May, and was a key member of what became known as 'The Bubble', the exclusive, dysfunctional working family that toured the world. With an enormous budget, they travelled like rock stars—with super cars, yachts, private jets, helicopters, and five-star wining and dining—taking their unique brand of motoring madness to 18 countries, 31 cities and to over 2 million fans in arenas and at festivals from New Zealand to Norway. Supported by a large crew and their personal entourage, Clarkson, Hammond and May, when not performing in their extraordinary, high octane, live action, motoring theatre, indulged in extravagant holidays. They and their 'Bubble' family relaxed in luxury resorts or private houses entertaining themselves with pool parties, drinking, heli-sightseeing, drinking, private motorboat cruises, drinking, jet skiing, sailing, drinking and eating, and drinking. In *Off-Road with Clarkson, Hammond & May*, Phillipa shares the tour highs, lows and laughter of three clever, funny, and very stupid motoring journalists.

**The War Against the BBC** Patrick Barwise, Peter York, 2020-11-19 There's a war on against the BBC. It is under threat as never before. And if we lose it, we won't get it back. The BBC is our most important cultural institution, our best-value entertainment provider, and the global face of Britain. It's our most trusted news source in a world of divisive disinformation. But it is facing relentless attacks by powerful commercial and political enemies, including deep funding cuts - much deeper than most people realise - with imminent further cuts threatened. This book busts the myths about the BBC and shows us how we can save it, before it's too late.

**Top Gear** Martin Roach, 2012-05 This is the full story of the unstoppable rise of Clarkson, Hammond, May and The Stig and how they have transformed an ordinary programme about cars into one of the most famous and best-loved TV programmes of the 21st century.

**Where's Stig: Motorsport Madness** Rod Hunt, 2014-09-25 The Stig, Top Gear's tame racing driver, is off on another adventure, this time following his passion for speed and adrenaline to its natural conclusion - motorsport. Stig has disappeared into the world of racing, and it's your job to find him. Follow Stig as he roams from the stifling heat of the Dakar rally to the redneck heartland of a NASCAR track, or from the nighttime drama of Le Mans to the mud-soaked stands of Silverstone for the British Grand Prix. Along the way you'll also find Clarkson, Hammond and May as they indulge in a spot of home-made motorhome racing or Roman rallying, middle-eastern style. The *Where's Stig* books have taken Top Gear fans by storm - and his latest voyage is the most action packed yet!

**The Top Gear Story** Martin Roach, 2017-02-02 With Jeremy Clarkson, Richard Hammond and James May at the helm, Top Gear became a true global phenomenon. However, after the infamous 'fracas' involving Clarkson and one of the show's producers, it's all change in the Top Gear universe. Top Gear's devoted viewers around the world (at its peak; 350 million in 170 countries) await its new incarnations with expectation, intrigue and some apprehension. It remains to be seen whether Clarkson, Hammond and May can re-create their old madcap genius on Amazon Prime, and the new BBC presenters have already had to deal with tabloid controversies and rumours. Whatever happens, it's going to make for fascinating viewing. This is an in-depth, fully up-to-date tribute to one of Britain's biggest TV exports and will be a must-read for any fan of the show.

**Top Gear: Ambitious but Rubbish**, 2015-08-27 *Ambitious but Rubbish* reveals the off-camera secrets behind some of Top Gear's most memorable creations. From the challenge of turning a Reliant Robin into a rocket and the genesis of the Hammerhead-i Eagle Thrust electric car to the complexities of building a caravan airship and the inspiration for destruction-testing a Toyota Hilux, this book is packed with the previously untold stories behind dozens of classic TV moments. Top Gear has never shied away from trying to answer questions no one has even thought to ask. Questions like 'Can you make a convertible people carrier?', 'Can you cross the Channel in a pick-up?' and 'Can you turn a combine harvester into a snow plough?'. *Ambitious but Rubbish* reveals how those insane ideas came about with remarkable tales of ingenious invention and idiotic engineering. This book is essential

reading for any Top Gear fan and a terrific insight into the creation of the world's biggest car show. It's also a terrifying window into the minds of Jeremy Clarkson, Richard Hammond and James May. Don't say you weren't warned about that last one.

**Branding Television** Catherine Johnson, 2012-03-12 Branding Television examines why and how the UK and US television industries have turned towards branding as a strategy in response to the rise of satellite, cable and digital television, and new media, such as the internet and mobile phone. This is the first book to offer a sustained critical analysis of this new cultural development. Branding Television examines the industrial, regulatory and technological changes since the 1980s in the UK and the USA that have led to the adoption of branding as broadcasters have attempted to manage the behaviour of viewers and the values associated with their channels, services and programmes in a world of increased choice and interactivity. Wide-ranging case studies drawn from commercial, public service, network and cable/satellite television (from NBC and HBO to MTV, and from BBC and Channel 4 to UKTV and Sky) analyse the role of marketing and design in branding channels and corporations, and the development of programmes as brands. Exploring both successful and controversial uses of branding, this book asks what problems there are in creating television brands and whether branding supports or undermines commercial and public service broadcasting. Branding Television extends and complicates our understanding of the changes to television over the past 30 years and of the role of branding in contemporary Western culture. It will be of particular interest to students and researchers in television studies, but also in creative industries and media and cultural studies more generally.

**May on Motors** James May, 2012-04-30 Best known as the third presenter in the unholy trinity that is Clarkson, Hammond and May on Top Gear, James May has lived, breathed and dreamt about cars his entire life. There is something about cars that stirs up intense feelings in people - how it makes them look to the outside world, how it makes them feel about themselves, how it looks to their girlfriends or their mates, or their neighbours. These feelings are humorously described in May on Motors, as James takes us on the road and looks at the cars that have shaped him, his world and the ordinary people of Britain. In May on Motors, James has brought together his most controversial and amusing pieces to make a brilliant collection that will amuse and inspire all car enthusiasts.

**Increasing Student Engagement and Retention Using Mobile Applications** Laura A. Wankel, Patrick Blessinger, 2013-01-30 Mobile technologies are reshaping and reframing the practice of teaching and learning in higher education. This volume critically examines new research on how mobile technologies and m-learning technologies like Skype are being used in higher education to increase learner engagement in an era of increasing globalization and mobility.
