**Craig Davidson**

The Spark Kristine Barnett,2013-04-09 Kristine Barnett's son Jacob has an IQ higher than Einstein's, a photographic memory, and he taught himself calculus in two weeks. At nine he started working on an original theory in astrophysics that experts believe may someday put him in line for a Nobel Prize, and at age twelve he became a paid researcher in quantum physics. But the story of Kristine's journey with Jake is all the more remarkable because his extraordinary mind was almost lost to autism. At age two, when Jake was diagnosed, Kristine was told he might never be able to tie his own shoes. The Spark is a remarkable memoir of mother and son. Surrounded by "experts" at home and in special ed who tried to focus on Jake's most basic skills and curtail his distracting interests—moving shadows on the wall, stars, plaid patterns on sofa fabric—Jake made no progress, withdrew more and more into his own world, and eventually stopped talking completely. Kristine knew in her heart that she had to make a change. Against the advice of her husband, Michael, and the developmental specialists, Kristine followed her instincts, pulled Jake out of special ed, and began preparing him for mainstream kindergarten on her own. Relying on the insights she developed at the daycare center she runs out of the garage in her home, Kristine resolved to follow Jacob's "spark"—his passionate interests. Why concentrate on what he couldn't do? Why not focus on what he could? This basic philosophy, along with her belief in the power of ordinary childhood experiences (softball, picnics, s'mores around the campfire) and the importance of play, helped Kristine overcome huge odds. The Barnetts were not wealthy people, and in addition to financial hardship, Kristine herself faced serious health issues. But through hard work and determination on behalf of Jake and his two younger brothers, as well as an undying faith in their community, friends, and family, Kristine and Michael prevailed. The results were beyond anything anyone could have imagined. Dramatic, inspiring, and transformative, The Spark is about the power of love and courage in the face of overwhelming obstacles, and the dazzling possibilities that can occur when we learn how to tap the true potential that lies within every child, and in all of us. Praise for The Spark "[An] amazing memoir . . . compulsive reading."—The Washington Post "The Spark is about the transformative power of unconditional love. If you have a child who's 'different'—and who doesn't?—you won't be able to put it down."—Sylvia Nasar, author of A Beautiful Mind "Love, illness, faith, tragedy and triumph—it's all here. . . . Jake Barnett's story contains wisdom for every parent."—Newsday "This eloquent memoir about an extraordinary boy and a resilient and remarkable mother will be of interest to every parent and/or educator hoping to nurture a child's authentic 'spark.'"—Publishers Weekly "Compelling . . . Jake is unusual, but so is his superhuman mom."—Booklist "The Spark describes in glowing terms the profound intensity with which a mother can love her child."—Andrew Solomon, author of The Noonday Demon and Far from the Tree "Every parent and teacher should read this fabulous book!"—Temple Grandin, author of Thinking in Pictures and co-author of The Autistic Brain

**The Spark** Kristine Barnett,2013-04-09 The extraordinary memoir of a mother's love, commitment and nurturing, which allowed her son, originally diagnosed with severe autism, to flourish into a universally recognized genius--and how any parent can help their child find their spark. Today, at 13, Jacob is a paid researcher in quantum physics, working on extending Einstein's theory of relativity. Diagnosed at 1 with severe autism, at 3 he was assigned to life-skills classes and his parents were told to adjust their expectations. The goal: tying his own shoes at 16. Kristine's belief in the power of hope and the dazzling possibilities that can occur when we keep our minds open and learn to fuel a child's true potential changed everything.

**The Girls of Slender Means (New Directions Classic)** Muriel Spark,1998-04-17 Long ago in 1945 all the nice people in England were poor, allowing for exceptions, begins The Girls of Slender Means, Dame Muriel Spark's tragic and rapier-witted portrait of a London ladies' hostel just emerging from the shadow of World War II. Like the May of Teck Club itself—three times window shattered since 1940 but never directly hit—its lady inhabitants do their best to act as if the world were back to normal: practicing elocution, and jostling over suitors and a single Schiaparelli gown. The novel's harrowing ending reveals that the girls' giddy literary and amorous peregrinations are hiding some tragically painful war wounds. Chosen by Anthony Burgess as one of the Best Modern Novels in the Sunday Times of London, The Girls of Slender Means is a taut and eerily perfect novel by an author The New York Times has called one of this century's finest creators of comic-metaphysical entertainment.

*Dancing with Max* Emily Colson,Charles W. Colson,2010 Boehme, a single mother who has faced life's toughest obstacles, relates how her 19-year-old autistic son, Max, unraveled the thinking of those who tried to teach him and help him--a lesson that the seemingly weak people can be more powerful than the strong. 2 Billion Under 20 Jared Kleinert,Stacey Ferreira,2015-07-28 Of the roughly 6.97 billion people on Earth today, approximately 2 billion of them are under 20 years old. Millennials have a lot of reputations these days, but powerful, smart, and affective are not usually the adjectives used to describe them. Jared Kleinert and Stacey Ferreira want to change that and empower these young people to follow their dreams, set goals, and achieve success. Both young successful entrepreneurs themselves, they believe in breaking down age barriers to make a difference. Jared, best-known as the Founder and CEO of Synergist, and Stacey, best-known as the Co-Founder of MySocialCloud.com met in 2012 at the Under 20 Thiel Fellowship Summit. After speaking with their equally impressive peers, they realized that these 2 billion young voices have inspiring stories to share with the world and they wanted to bring them to life through 2 Billion Under 20. Jared and Stacey also decided to start an online community, www.2BillionUnder20.com where young people could help each other grow and develop their dreams into reality. They've curated an anthology of amazing stories from their peers. Contributors like Paige McKenzie who started her own YouTube channel at the age of 16 that now has more than 55 million views and Jack Andraka who created an early detection Pancreatic cancer test at age 14 have joined forces to show the world that age is just a number.

**Precious Cargo** Craig Davidson,2020-08-04 NATIONAL BESTSELLER For readers of Kristine Barnett's The Spark, Andrew Solomon's Far From the Tree and Ian Brown's The Boy in the Moon, here is a heartfelt, funny and surprising memoir about one year spent driving a bus full of children with special needs. With his last novel, Cataract City, Craig Davidson established himself as one of our most talented novelists. But before writing that novel and before his previous work, Rust and Bone, was made into a Golden Globe-nominated film, Davidson experienced a period of poverty, apparent failure and despair. In this new work of riveting and timely non-fiction, Davidson tells the unvarnished story of one transformative year in his life and of his unlikely relationships with a handful of unique and vibrant children who were, to his initial astonishment and bewilderment, and eventual delight, placed in his care for a couple of hours each day--the kids on school bus 3077. One morning in 2008, desperate and impoverished while trying unsuccessfully to write, Davidson plucked a flyer out of his mailbox that read, Bus Drivers Wanted. That was the first step towards an unlikely new career: driving a school bus full of special-needs kids for a year. Armed only with a sense of humour akin to that of his charges, a creative approach to the challenge of driving a large, awkward

vehicle while corralling a rowdy gang of kids, and unexpected reserves of empathy, Davidson takes us along for the ride. He shows us how his evolving relationship with the kids on that bus, each of them struggling physically as well as emotionally and socially, slowly but surely changed his life along with the lives of the precious cargo in his care. This is the extraordinary story of that year and those relationships. It is also a moving, important and universal story about how we see and treat people with special needs in our society.

**Girl Meets Boy** Ali Smith,2021-06-30 From the astonishingly talented writer of *The Accidental* and *Hotel World* comes Ali Smith's brilliant retelling of Ovid's gender-bending myth of Iphis and Ianthe, as seen through the eyes of two Scottish sisters. *Girl Meets Boy* is about girls and boys, girls and girls, love and transformation, and the absurdity of consumerism, as well as a story of reversals and revelations that is as sharply witty as it is lyrical. Funny, fresh, poetic, and political, *Girl Meets Boy* is a myth of metamorphosis for a world made in Madison Avenue's image, and the funniest addition to the *Myths* series from Canongate since Margaret Atwood's *The Penelopiad*.

**Ordinary Miracles** Deborah Labovitz,2003 Find out how people have learned to cope with their troubles and have become stronger by the very act of overcoming obstacles and surviving catastrophes. These are their stories, written by the people who lived them, their families, or those who helped them save the day.

**The Public Image** Muriel Spark,1975

*Views from the Spectrum* Ron Sandison,2021-05-25 A remarkable inside look at the intersection of faith and autism for parents longing to connect their children with God's love Raising a child with autism is both a challenge and an adventure--and sometimes parents need to know there can also be wonderful potential for blessings. *Views from the Spectrum* shares the inspiring stories of twenty amazing young adults with autism and how each of their family's unwavering support and faith in God led them to accomplish what was thought impossible. As a thriving adult with autism himself, Ron Sandison is determined to educate the world on the gifts and talents autism can cultivate--even when they differ from our expectations of typical success. While it is primarily a much-needed how-to guide for parents of children with special needs, this book is also a stunning view into the world of autism. Readers will witness the courage of Tyler Gianchetta, who rescued his mother from a burning vehicle. They'll marvel at the artistic talent of nonverbal poet and artist Kimberly Dixon, admire the determination of Armani Williams, competing as a NASCAR driver, and find encouragement in the many other stories within these pages. In addition to these experiences, Sandison has also interviewed top experts in the autism field and shares their insights here. Sandison weaves narrative with Scripture, sharing his own journey with autism throughout the book. Full of anecdotes, scientific research, parenting tips, prayers, devotions, and more, *Views from the Spectrum* is a celebration of autism, faith, and the possibilities at their intersection.

**George & Sam** Charlotte Moore,2013-10-08 For the parents, families, and friends of the 1 in 250 autistic children born annually in the United States, *George and Sam* provides a unique look into the life of the autistic child. Charlotte Moore has three children, George, Sam, and Jake. George and Sam are autistic. *George and Sam* takes the reader from the births of each of the two boys, along the painstaking path to diagnosis, interventions, schooling and more. She writes powerfully about her family and her sons, and allows readers to see the boys behind the label of autism. Their often puzzling behavior, unusual food aversions, and the different ways that autism affects George and Sam lend deeper insight into this confounding disorder. *George and Sam* emerge from her narrative as distinct, wonderful, and at times frustrating children who both are autistic through and through. Moore does not feel the need to search for cause or cure, but simply to find the best ways to help her sons. She conveys to readers what autism is and isn't, what therapies have worked and what hasn't been effective, and paints a moving, memorable portrait of life with her boys. Charlotte Moore is a writer and journalist who lives in Sussex, England with her three sons. She is the author of four novels and three children's books. For two years she wrote a highly acclaimed column in the *Guardian* called *Mind the Gap* about life with George and Sam. She is a contributor to many publications.

Hurry Down Sunshine Michael Greenberg,2008-09-09 "Hurry Down Sunshine is about tenacity and tenderness...but mostly it's about love." —OPRAH WINFREY AN AMAZON BEST BOOK OF THE MONTH PICK This international bestseller is an extraordinary family story and an exceptionally powerful memoir about coping with bipolar disorder, now with a new afterword for the ten-year anniversary edition. It is a tale of a family broken open, then painstakingly, movingly stitched together again. Greenberg's unforgettable cast of characters includes an unconventional psychiatrist, an Orthodox Jewish patient, a manic Classics professor, a movie producer, and a landlord with literary aspirations. Unsentimental, nuanced, and deeply humane, *Hurry Down Sunshine* is essential reading in the literature of affliction with such classics as *Girl, Interrupted* and *An Unquiet Mind*.

*The Religion of Technology* David F. Noble,2013-01-23 Arguing against the widely held belief that technology and religion are at war with each other, David F. Noble's groundbreaking book reveals the religious roots and spirit of Western technology. It links the technological enthusiasms of the present day with the ancient and enduring Christian expectation of recovering humankind's lost divinity. Covering a period of a thousand years, Noble traces the evolution of the Western idea of technological development from the ninth century, when the useful arts became connected to the concept of redemption, up to the twentieth, when humans began to exercise God-like knowledge and powers. Noble describes how technological advance accelerated at the very point when it was

invested with spiritual significance. By examining the imaginings of monks, explorers, magi, scientists, Freemasons, and engineers, this historical account brings to light an other-worldly inspiration behind the apparently worldly endeavors by which we habitually define Western civilization. Thus we see that Isaac Newton devoted his lifetime to the interpretation of prophecy. Joseph Priestley was the discoverer of oxygen and a founder of Unitarianism. Freemasons were early advocates of industrialization and the fathers of the engineering profession. Wernher von Braun saw spaceflight as a millenarian new beginning for humankind. The narrative moves into our own time through the technological enterprises of the last half of the twentieth century: nuclear weapons, manned space exploration, Artificial Intelligence, and genetic engineering. Here the book suggests that the convergence of technology and religion has outlived its usefulness, that though it once contributed to human well-being, it has now become a threat to our survival. Viewed at the dawn of the new millennium, the technological means upon which we have come to rely for the preservation and enlargement of our lives betray an increasing impatience with life and a disdainful disregard for mortal needs. David F. Noble thus contends that we must collectively strive to disabuse ourselves of the inherited religion of technology and begin rigorously to re-examine our enchantment with unregulated technological advance.

**Off the Charts** Ann Hulbert, 2019-01-22 Ann Hulbert's in-depth exploration of the lives of sixteen extraordinary children over the course of the past century casts new light on America's current obsession with early achievement. The figures she profiles include math genius Norbert Wiener, founder of cybernetics; two girls whose fiction and poetry stirred debate in the 1920s; the movie superstar Shirley Temple; the African-American pianist and composer Philippa Schuyler; the chess champion Bobby Fischer; computer pioneers and "prodigious savants" with autism; and musical prodigies, present and past. Hulbert probes the changing roles of parents and teachers as well as of psychologists and a curious press. Above all, she delves into the feelings of the prodigies themselves, whose stories so intriguingly raise hopes about untapped human potential and questions about how best to nurture it.
