Transglobal Media Flows and African Popular Culture Abdalla

Uba Adamu, 2007 This essay explores the impact of global trends and flows of popular culture to Muslim Hausaland from 1935 to 2005 in three distinct areas: prose fiction, oral performing arts and video film. The paper specifically analyses the impact of popular culture from the Far East and Asia on the transformation of the identity of creative and performing arts among the Hausa of northern Nigeria. The main work that led the way to such literary influence was *Magana Jari Ce*, often considered the unalloyed Hausa literary classic. This book, published in 1937, gave birth to a phenomenon of artistic adaptation - or more directly, appropriation - of creative works by the Hausa from countries and cultures deemed to share the same cultural space as the Hausa. *Magana Jari Ce*, based on extensive re-telling and re-structuring of folk tales from various European, Middle Eastern and Far Eastern cultures laid the foundation of using the cultural identity of other societies in Hausa popular culture. When globalisation became electronic in the form of Hindi cinema, Hausa performance artistes followed the lead of literary adapters of the Others' literature, and this led to the emergence of oral poets - both in the popular culture and religious domains - who use Hindi film song motifs as a template for their art. This process culminated into the appearance of the Hausa video film from 1990 which is almost exclusively based on the Hindi film concept of storyline and uses the essential features of Hindi film - which was the love triangle, forced marriage and long song and dance routines that focus mainly on the sexuality of the female mime singers. This revolution in mass popular culture was counteracted by a reaction from the Islamic environment in which the modernising Hausa popular culture finds itself.

*A Hausa-English Dictionary* Paul Newman, Roxana Ma Newman, 2007-01-01 This up-to-date volume, the first Hausa-English dictionary published in a quarter of a century, is written with language learners and practical users in mind. With over 10,000 entries, it primarily covers Standard Nigerian Hausa but also includes numerous forms from Niger and other dialect areas of Nigeria. The dictionary includes new Hausa terminology for products, events, and activities of the modern world. Its definitions show the use of Hausa words in context, and particular attention is paid to idioms, figurative meanings, and special usages. As a guide to pronunciation, headwords and illustrative sentences are fully marked for tone and vowel length. The book adopts a unique approach to the presentation of verb forms that clarifies lexical relationships and their correct usage.

*Sahaja Yoga* Shri Mataji Nirmala Devi,2018-04-15 Shri Mataji writes that "India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it." This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. "The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form."

**Studies in Hausa** Graham Furniss, Philip J.

Jaggar,2015-06-03 First published in 1988, this book is a landmark in the study of one of the major African languages: Hausa. Hausa is spoken by 40-50 million people, mostly in northern Nigeria, but also in communities stretching from Senegal to the Red Sea. It is a language taught on an international basis at major universities in Nigeria, the USA, Western and Eastern Europe, the Middle and Far East, and is probably the best studied African language, boasting an impressive list of research publications. As Nigeria grows in importance, so Hausa becomes a language of international standing. The volume brings together contributions from the major contemporary figures in Hausa language studies from around the world. It contains work on the linguistic description of Hausa, various aspects of Hausa literature, both oral and written, and on the description of the relationship of Hausa to other Chadic languages.

*Gold* Christopher Corti, Richard Holliday, 2009-12-02 Gold is used in a wide range of industrial and medical applications and accounts for over 10 percent of the annual demand for metal, worth billions of dollars annually. While much has been written about the mystique and trade of gold, very little has been written

about the science and technology in which it is involved. Edited by two respected authorities from the World Gold Council, *Gold: Science and Applications* provides researchers with the definitive handbook on the current science and applications of this valuable and beautiful precious metal. Packed with contributions from the world's leading experts, this volume brings in authoritative information from a number of sciences, including chemistry, physics, nanotechnology and metallurgy. The book presents a myriad of applications, ranging from electronics to medicine and optics. A comprehensive overview chapter provides historical perspectives of the element and each chapter describes potential further uses, including applications currently being developed. *Gold Applications in Use Today Include: Medical Dental Electronics Engineering Industrial Pollution Control Photography Catalysts Nanotechnology*

Literatures in African Languages B. W. Andrzejewski, S. Pilaszewicz, W. Tyloch, 1985-11-21 Although African literatures in English and French are widely known outside Africa, those in the African languages themselves have not received comparable attention. In this book a number have been selected for survey by fourteen specialist writers, providing the reader with an introduction to this very wide field and a body of reference material which includes extensive bibliographies and biographical information on African authors. Theoretical issues such as genre divisions are discussed in the essays and the historical, social and political forces at work in the creation and reception of African literature are examined. Literature is treated as an art whose medium is language, so that both the oral and written forms are encompassed. This book will be of value not only to readers concerned with the cultures of Africa but to all those with an interest in the literary phenomena of the world in general.
