The Life of Arthur W. Pink Iain Hamish Murray,Arthur Walkington Pink,2004 Pink's biography, first written by Iain Murray in 1981, is here revised and enlarged with the benefit of new material, including some of Pink's own re-discovered manuscripts. It is the heart-stirring and compelling story of a strong, complex character a 'Mr Valiant-for-truth' who was also a humble Christian. In 1922 a small magazine *Studies in the Scriptures* began to circulate among Christians in the English-speaking world. It pointed its readership back to an understanding of the gospel that had rarely been heard since the days of C. H. Spurgeon. At the time it seemed as inconsequential as its author, but subsequently Arthur Pink's writings became a major element in the recovery of expository preaching and biblical living. Born in England in 1886, A. W. Pink was the little-known pastor of churches in the United States and Australia before he finally returned to his homeland in 1934. There he died almost unnoticed in 1952.

The College Fear Factor Rebecca D. Cox,2010-02-15 They're not the students strolling across the bucolic liberal arts campuses where their grandfathers played football. They are first-generation college students—children of immigrants and blue-collar workers—who know that their hopes for success hinge on a degree. But college is expensive, unfamiliar, and intimidating. Inexperienced students expect tough classes and demanding, remote faculty. They may not know what an assignment means, what a score indicates, or that a single grade is not a definitive measure of ability. And they certainly don't feel entitled to be there. They do not presume success, and if they have a problem, they don't expect to receive help or even a second chance. Rebecca D. Cox draws on five years of interviews and observations at community colleges. She shows how students and their instructors misunderstand and ultimately fail one another, despite good intentions. Most memorably, she describes how easily students can feel defeated—by their real-world responsibilities and by the demands of college—and come to conclude that they just don't belong there after all. Eye-opening even for experienced faculty and administrators, *The College Fear Factor* reveals how the traditional college culture can actually pose obstacles to students' success, and suggests strategies for effectively explaining academic

expectations.

*Protecting Human Rights Defenders at Risk* Alice M. Nah, 2020-11-22 This book assesses the construction, operation and effects of the international protection regime for human rights defenders, which has evolved significantly over the last twenty years in response to the risks people face as they promote and protect human rights. Drawing upon the experiences of human rights defenders who continue to persevere in their activism in Indonesia, Egypt, Kenya, Mexico and Colombia, this edited collection examines the ways in which formal protection mechanisms by state and civil society actors intersect with self-protection measures and informal protection initiatives by families and friends. It

highlights that protection practices are most effective when they are designed to address the specific risks that human rights defenders face (which are gendered and intersectional); reflect how defenders understand 'risk', 'security' and 'protection'; and are appropriate for the dynamic sociopolitical and legal contexts in which defenders operate. This book proposes ways in which the protection of human rights defenders at risk should be reimagined and practised. This book will be a thought-provoking guide for students and scholars of politics, international relations, law and human rights, as well as to practitioners engaged in the protection of human rights defenders at risk.

The American Community College Arthur M. Cohen,Florence B. Brawer,1989-09-25 This monograph provides a comprehensive overview of community college education in the United States, emphasizing trends affecting two-year colleges within the past decade. Chapter 1 identifies the social forces that contributed to the development and expansion of community colleges and the continuing changes in institutional purposes. Chapter 2 examines the shifting patterns of student characteristics and goals, the reasons for the predominance of part-time attendance, participation and achievement among minority students, attrition issues, and recent moves toward student assessment. Chapter 3 draws on national data to illustrate the differences between full- and part-time faculty and discusses issues related to tenure, salary, workload, faculty evaluation, moonlighting, burnout, and job satisfaction. Chapter 4 reviews the changes that have taken place in college management as a result of changes in institutional size, the advent of collective bargaining, reductions in available funds, and changes in governance and control. Chapter 5 describes various funding patterns and their relationship

to organizational shifts. Chapter 6 discusses the rise of learning resource centers and the maintenance of stability in instructional forms in spite of the introduction of a host of reproducible instructional media. Chapter 7 considers student personnel functions, including counseling, guidance, recruitment, retention, orientation, and extracurricular activities. Chapter 8 traces the rise of occupational education, as it has moved from a peripheral to a central position in the curriculum. Chapter 9 focuses on remedial and developmental programs and addresses the controversies surrounding student assessment and placement. Chapter 10 deals with adult and continuing education, lifelong learning, and community services. Chapters 11 and 12 examine curricular trends in the liberal arts and general education, highlighting problems and proposing solutions. Chapter 13 addresses the philosophical and practical questions that have been raised about the transfer function and the community college's role in enhancing student progress toward higher degrees. Finally, chapter 14 offers projections based on current trends in student and faculty demographics, college organization, curriculum, instruction, and student services. (JMC)
