The World Atlas of Coffee James Hoffmann, 2018-10-04 The worldwide bestseller - 1/3 million copies sold 'With his expert guidance we travel around the globe, from Burundi to Honduras via Vietnam, sipping and spitting as we go. This is high geekery made palatable by the evident love pulsing through every sentence.' - The Guardian 'The subject of coffee has never been more, er, hot, and The World Atlas of Coffee takes a close look at its history and evolution, the international range of beans and all the best ways to enjoy coffee. Great pics too.' - Susy Atkins, The Telegraph For everyone who wants to understand more about coffee and its wonderful nuances and possibilities, this is the book to have. Coffee has never been better, or more interesting, than it is today. Coffee producers have access to more varieties and techniques than ever before and we, as consumers, can share in that expertise to make sure the coffee we drink is the best we can find. Where coffee comes from, how it was harvested, the roasting process and the water used to make the brew are just a few of the factors that influence the taste of what we drink. Champion barista and coffee expert James Hoffmann examines these key factors, looking at varieties of coffee, the influence of terroir, how it is harvested and processed, the roasting methods used, through to the way in which the beans are brewed. Country by country - from Bolivia to Zambia - he then identifies key characteristics and the methods that determine the quality of that country's output. Along the way we learn about everything from the development of the espresso machine, to why strength guides on supermarket coffee are really not good news. This is the first book to chart the coffee production of over 35 countries, encompassing knowledge never previously published outside the coffee industry.

At the Table Ken Albala, 2016-04-04 What's for dinner? Not just in America, but around the world? And how is it cooked, what's the historical significance of that food, how is it served and consumed, and who gets to clean up? This book provides fascinating insight into how dinner is defined in countries around the world. Almost universally, dinner is a key meal in most countries around the world, whether it be a simple dish of rice and beans, a slice of pizza on the go, or a multi-course formal meal. What do the specifics of how a meal is eaten-by hand instead of with utensils, for example-say about a specific culture? This fascinating one-volume reference guide examines all aspects of dinner in international settings, enabling insightful cross-cultural comparisons and an understanding of the effects of modernization and globalization on food habits. Some 50 countries are covered in chapters focusing on present-day meal habits in Europe, Asia, the Middle East, Africa, and North and

South America. The commentary covers everything about the meal, such as the time, the cooking and preparation, shopping for ingredients, the clean-up process, gender-based participation roles, conversation or other social interactions, and etiquette—just about everything that happens at the table. The book is ideal for classroom teaching and learning, as the entries and photos are conducive to teaching students about other cultures, directly supporting the National Geography Standards. Students will be able to make informed comparisons between their own lives and the various cultural experiences described in the book.

Rethinking Prestige Branding Wolfgang Schaefer, JP Kuehlwein, 2015-05-03 What makes someone covet a Kelly bag? Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance

advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what drives the success of prestige brands. *Rethinking Prestige Branding* collects their insights. Uncovering the secrets of why and how some brands are created more equal than others, *Rethinking Prestige Branding* includes over 100 case studies from Apple and Abercrombie & Fitch to Tate Modern and Tesla. Rather than re-telling brand success stories or re-hashing long-standing marketing principles, it takes readers on a colourful journey behind the scenes of today's marketing pros. This book will fascinate marketing professional just as much as those who are simply curious as to how premium brands tick.

Brave New Meal Bad Manners, Michelle Davis, Matt Holloway, 2021-11-09 The New York Times bestselling authors of the Bad Manners cookbook series are back with a message for you (yeah, you): Eating less meat, saving the planet, and cooking at home don't have to be so f*cking boring—or expensive. If it feels like everything's so f*cked that you just wanna lay down and let the earth reclaim your body, we understand. A global pandemic forced all of us back into the kitchen but our fridges were full of by-products and fake flavors. It seems like half the ingredients and produce we buy goes in the trash while people starve, the planet burns and also somehow floods. And our culinary chaos is partly to blame. This sh*t isn't sustainable. Enter *Brave New Meal*: a chance for food to be not just different but better. Because here's the dirty little secret about eating vegan (or plant-based, meatless, flexitarian, whatever the hell they're calling it this week): done right, it's the cheapest, healthiest, most environmentally friendly, and tastiest (did we stutter?) food you

could possibly put into that temple you call a body. Brave New Meal shows you the way: • 100+ life-changing vegan recipes including Orange Peel Cauliflower, Beetaroni Pizza, Nashville Hot Shroom Sammie, Jackfruit Pupusas, and Plum-Side-Down Cake • Killer photos so you'll know for sure you didn't f*ck it up • Tips on how to stretch your budget, limit food waste, and incorporate every edible piece of the plant into your meals (or finally find a use for that wilted kale in your fridge) • Shortcuts and substitutions for when the grocery store is sold out or you need help getting dinner on the goddamn table already • A produce glossary that breaks down everything you probably never knew (but most def should) about all the fresh stuff in your market Look, we're not asking you to go vegan. We're not even asking you to give up bacon (do whatever you gotta do). But just be real honest when you answer this question: What do you have to lose?
