Telework in the Federal Government Emile McClure,Keith York,2012 President Obama, Congress, and the United States Office of Personnel Management have all encouraged Federal agencies to expand their use of telework to ensure continuity of operations; find targeted productivity improvements and reduce overhead, real estate, environmental, and transit costs; and improve employees' ability to manage their work and life obligations. Telework's benefits are realised by Federal agencies only to the extent that employees are permitted to actively participate in these programs. This book summarises the provisions of P.L. 111-292 and identifies several possible issues for congressional oversight of telework.

Technological Transformation E.F. Byrne,Joseph C. Pitt,2012-12-06 The philosophical study of technology has acquired only recently a voice in academic conversation. This situation is due, in part, to the fact that technology obviously impacts on the real world, whereas the favored stereotype of philosophy allegedly does not. Furthermore, in some circles it was assumed that philosophy ought not impinge on the world. This bias continues today in the form of a general dismissal of the growing area now referred to as applied philosophy. By contrast, the academic scrutiny of science has for the most part been accepted as legitimate for some 30 years, primarily because it has been conducted in a somewhat ethereal manner. This is, in part, because it was believed that, science being pure, one could think (even philosophically) about science without jeopardizing one's intellectual purity. Since World War II, however, practitioners of the metascientific arts have come to acknowledge that science also shows signs of having touched down on numerous occasions in what can only be identified as the real world. No longer able to keep this banal truth a secret, purists have sought to defuse its import by stressing the difference between pure and applied science; and, lest science be tainted by contact with the world through its applications, they have devoted additional energy to separating applied science somehow from technology.

They came to this country before the Revolutionary War and settled in the Carolinas.--Page 13. Some later went to Alabama. Hans Kennamer, with a large family, and his eldest son, Jacob, who was married, came to the Cove and settled among the Indians in 1798, or not later than 1805. This place is now know as Kennamer Cove. ... The records of Madison County, Alabama, show that Samuel, Stephen and Jacob Kennamer bought land in that county in 1809. ... It is a well-known fact that the sons of Hans Kennamer settled ... in the western part of Jackson County, the eastern part of Madison County, and the northern part of Marshall County. David and Abram resided in Madison County,

while John Kennamer lived at the place wher Paint Rock, Alabama, now is. ... Hans Kennamer died and was buried in Pisgah Cemetery, in Kennamer Cove, Alabama.--Page 14-15. Nothing is know of his wife. Son Jacob Kennemer (ca. 1776-1856) ... moved from Alabama to Giles County, Tennessee where he acquired ... land of Sugar Creek. ... He was married twice, but the names of his wives could not be ascertained. He was buried on Anderson Creek, in Lauderdale County, Alabama, near Foster's Mill.--P. 17-18. Waterford Harbour Andrew Doherty, 2020-09-30 Waterford harbour has centuries of tradition based on its extensive fishery and maritime trade. Steeped in history, customs and an enviable spirit, it was there that Andrew Doherty was born and raised amongst a treasure chest of stories spun by the fishermen, sailors and their families. As an adult he began to research these accounts

and, to his surprise, found many were based on fact. In this book, Doherty will take you on a fascinating journey along the harbour, introduce you to some of its most important sites and people, the area's history, and some of its most fantastic tales. Dreaded press gangs who raided whole communities for crew, the search for buried gold and a ship seized by pirates, the horror of a German bombing of the rural idyll during the Second World War – on every page of this incredible account you will learn something of the maritime community of Waterford Harbour.
