Mercedes-Benz W201 (190) James Taylor, 2020-09-01 The W201 was a compact saloon designed to address both concerns about fuel economy generated by the first oil crisis in the 1970s and competition for sales from the BMW 3 Series. Many doubted that Mercedes could deliver a compact car whilst retaining their traditional qualities. But the W201 soon won them over. For here was a car that was a real Mercedes in the tradition of the time - it was just smaller. With around 200 photographs, the book features the reasons behind the need to build a new compact saloon in the 1980s. It covers the styling, engineering and specification changes introduced over the lifetime of the model; gives full technical specifications, including paint and interior trim choices and production tables and vehicle number sequences. The story of Mercedes' long and exciting struggle to win the German Touring Car Championship with the 190 is covered. There is a chapter on the special US variants and, finally, a chapter on buying and owning a 201-series Mercedes.

Mercedes-Benz Saloon Coupe Nik Greene,2021-09-27 First produced in 1928, Mercedes-Benz Coupés became the embodiment of elegance and exclusivity on four wheels. Their design became an experience for all the senses, appealing to every emotion. Hans-Dieter Futschik, the designer responsible for many of the later Mercedes-Benz models, said of the Saloon Coupé: 'A shorter wheelbase compared with the saloons gives it different proportions that are almost sports car-like in character. The passenger compartment is set further back. This gives it a sportier look than a saloon. In addition, the greenhouse is smaller and more streamlined than the basic body. It looks like a small head set on a muscular body, exuding a powerful and more dynamic attitude... Everything radiates power, elegance and agility.' This complete guide includes an overview of early automotive history; pre-merger design from both Benz and Daimler; the historical protagonists and how they influenced the design; how design and fashion change vehicle shape; the continued development of Saloon Coupe design to suit every class and finally, the modern idea of the Coupe.
