Design on the High Seas Joseph Farcus,2018 - Over 250 full-color images of the defining works Joseph Farcus carried out for Carnival Cruise Lines and Costa Cruises, as well as theaters, interiors, and other projects, which have inspired his liner designs - His works have been described as floating theatres that travel the high seas - Provides an insight into the philosophy driving Farcus' work, setting the scene in his childhood in Miami, with a fascinating look at his promising first sketches and models he made as a boy - Offers an in-depth account of the cruise ship industry, and how Farcus and Carnival Cruise Lines have worked hand in hand to develop the industry Design on the High Seas is an autobiographical account of the architectural design work of Joseph Farcus, which charts his career as an architect who eventually found his way into the cruise-ship industry, in the early days of what is now a truly global business in more ways than one. His works reflects a hard-earned disciplined practice that has helped to foster sophisticated designs for the billion-dollar cruise-ship industry. Many of the projects featured in the pages of this book reflect the beautiful ships of Carnival Cruise Lines, the world's leading cruise-ship company, as well as those of the celebrated Costa Cruises. The volume combines spectacular full-color photography, original sketches, and a compelling, first-person narrative to showcase Farcus's spectacular journey. The author shares anecdotes from his childhood, his university days and his early career, giving an insight into what inspired the architect he was to become - and explaining how the astronomical success of the Carnival Cruise Lines is due in no small way to his product-defining designs. Indeed, millions of passengers have enjoyed memorable and meaningful experiences aboard his works. This is a fascinating and unique account of an architectural designer's journey, and it will appeal to a broad readership: those who love to sail, those with a passion for boat design, as well as businesspeople of all backgrounds who wish to learn the story behind a leisure industry powerhouse.

Model Rules of Professional Conduct American Bar Association. House of Delegates,Center for Professional Responsibility (American Bar Association),2007 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

The Image of the City Kevin Lynch,1964-06-15 The classic work on the evaluation of city form. What does the city's form actually mean to the people who live there? What can the city planner do to make the city's image more vivid and memorable to the city dweller? To answer these questions, Mr. Lynch, supported by studies of Los Angeles, Boston, and Jersey City, formulates a new criterion—imageability—and shows its potential value as a guide for the building and rebuilding of cities. The wide scope of this study leads to an original and vital method for the evaluation of city form. The architect, the planner, and certainly the city dweller will all want to read this book.
