Murder Among Friends Candace Fleming, 2022-03-29

How did two teenagers brutally murder an innocent child...and why? And how did their brilliant lawyer save them from the death penalty in 1920s Chicago? Written by a prolific master of narrative nonfiction, this is a compulsively readable true-crime story based on an event dubbed the crime of the century. In 1924, eighteen-year-old college students Nathan Leopold and Richard Loeb made a decision: they would commit the perfect crime by kidnapping and murdering a child they both knew. But they made one crucial error: as they were disposing of the body of young Bobby Franks, whom they had bludgeoned to death, Nathan's eyeglasses fell from his jacket pocket. Multi-award-winning author Candace Fleming depicts every twist and turn of this harrowing case--how two wealthy, brilliant young men planned and committed what became known as the crime of the century, how they were caught, why they confessed, and how the renowned criminal defense attorney Clarence Darrow enabled them to avoid the death penalty. Following on the success of such books as *The Rise and Fall of Charles Lindbergh* and *The Family Romanov*, this acclaimed nonfiction writer brings to heart-stopping life one of the most notorious crimes in our country's history.

Dálvi Laura Galloway, 2022-02-03 Part memoir, part travelogue, this is the story of one woman's six years living in a reindeer-herding village in the Arctic Tundra, forging a life on her own as the only American among one of the most unknowable cultures on earth. An ancestry test suggesting she shared some DNA with the Sámi people, the indigenous inhabitants of the Arctic tundra, tapped into Laura Galloway's wanderlust; an affair with a Sámi reindeer herder ultimately led her to leave New York for

the tiny town of Kautokeino, Norway. When her new boyfriend left her unexpectedly after six months, it would have been easy, and perhaps prudent, to return home. But she stayed for six years. *Dálvi* is the story of Laura's time in a reindeer-herding village in the Arctic, forging a solitary existence as she struggled to learn the language and make her way in a remote community for which there were no guidebooks or manuals for how to fit in. Her time in the North opened her to a new world. And it brought something else as well: reconciliation and peace with the traumatic events that had previously defined her - the sudden death of her mother when she was three, a difficult childhood and her lifelong search for connection and a sense of home. Both a heart-rending memoir and a love letter to the singular landscape of the region, *Dálvi* explores with great warmth and humility what it means to truly belong.

The Chinese Navy Institute for National Strategic Studies,2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's naval modernization.

Confessions of a Recovering Environmentalist and Other Essays Paul Kingsnorth,2017-08-01 A provocative and urgent essay collection that asks how we can live with hope in “an age of ecocide” Paul Kingsnorth was once an activist—an ardent environmentalist. He fought against rampant development and the depredations of a corporate

world that seemed hell-bent on ignoring a looming climate crisis in its relentless pursuit of profit. But as the environmental movement began to focus on “sustainability” rather than the defense of wild places for their own sake and as global conditions worsened, he grew disenchanted with the movement that he once embraced. He gave up what he saw as the false hope that residents of the First World would ever make the kind of sacrifices that might avert the severe consequences of climate change. Full of grief and fury as well as passionate, lyrical evocations of nature and the wild, *Confessions of a Recovering Environmentalist* gathers the wave-making essays that have charted the change in Kingsnorth’s thinking. In them he articulates a new vision that he calls “dark ecology,” which stands firmly in opposition to the belief that technology can save us, and he argues for a renewed balance between the human and nonhuman worlds. This iconoclastic, fearless, and ultimately hopeful book, which includes the much-discussed “Uncivilization” manifesto, asks hard questions about how we’ve lived and how we should live.

Hidden Warbirds Nicholas A. Veronico, 2013-06-15 “If you only have room in your collection for one book on WWII-era warbird wreck histories and recoveries, then it should be this one. . . . Fascinating.” —Alan Griffith, author of *Consolidated Mess Aviation* historian Nicholas A. Veronico has been investigating and writing about aircraft wrecks for many years. His website, wreckchasing.com, is the go-to source for enthusiasts who want to know more about how to locate vintage airplane wrecks and then tell their stories. In this engaging new book, Veronico explores the romantic era of World War II Warbirds and the stories of some of its most famous wrecks, including the “Swamp Ghost” (a B-17E which crashed in New Guinea in the early

days of World War II and which was only recently recovered), and “Glacier Girl” (a P-38, part of “The Lost Squadron,” which crashed in a large ice sheet in Greenland in 1942). Throughout, Veronico provides a history of the aircraft, as well as the unique story behind each discovery and recovery with ample illustrations. *Hidden Warbirds* is aviation history at its best.

Indigenous Continent: The Epic Contest for North America Pekka Hämäläinen, 2022-09-20 NATIONAL BESTSELLER New York Times Book Review • 100 Notable Books of 2022 Best Books of 2022 — New Yorker, Kirkus Reviews Longlisted for the Andrew Carnegie Medal for Excellence “I can only wish that, when I was that lonely college junior and was finishing *Bury My Heart at Wounded Knee*, I’d had Hämäläinen’s book at hand.” —David Treuer, *The New Yorker* “[T]he single best book I have ever read on Native American history.” —Thomas E. Ricks, *New York Times Book Review* A prize-winning scholar rewrites 400 years of American history from Indigenous perspectives, overturning the dominant origin story of the United States. There is an old, deeply rooted story about America that goes like this: Columbus “discovers” a strange continent and brings back tales of untold riches. The European empires rush over, eager to stake out as much of this astonishing “New World” as possible. Though Indigenous peoples fight back, they cannot stop the onslaught. White imperialists are destined to rule the continent, and history is an irreversible march toward Indigenous destruction. Yet as with other long-accepted origin stories, this one, too, turns out to be based in myth and distortion. In *Indigenous Continent*, acclaimed historian Pekka Hämäläinen presents a sweeping counternarrative that shatters the most basic assumptions about American history. Shifting our perspective away

from Jamestown, Plymouth Rock, the Revolution, and other well-trodden episodes on the conventional timeline, he depicts a sovereign world of Native nations whose members, far from helpless victims of colonial violence, dominated the continent for centuries after the first European arrivals. From the Iroquois in the Northeast to the Comanches on the Plains, and from the Pueblos in the Southwest to the Cherokees in the Southeast, Native nations frequently decimated white newcomers in battle. Even as the white population exploded and colonists' land greed grew more extravagant, Indigenous peoples flourished due to sophisticated diplomacy and leadership structures. By 1776, various colonial powers claimed nearly all of the continent, but Indigenous peoples still controlled it—as Hämäläinen points out, the maps in modern textbooks that paint much of North America in neat, color-coded blocks confuse outlandish imperial boasts for actual holdings. In fact, Native power peaked in the late nineteenth century, with the Lakota victory in 1876 at Little Big Horn, which was not an American blunder, but an all-too-expected outcome. Hämäläinen ultimately contends that the very notion of “colonial America” is misleading, and that we should speak instead of an “Indigenous America” that was only slowly and unevenly becoming colonial. The evidence of Indigenous defiance is apparent today in the hundreds of Native nations that still dot the United States and Canada. Necessary reading for anyone who cares about America's past, present, and future, Indigenous Continent restores Native peoples to their rightful place at the very fulcrum of American history.

Nothing But Blue Skies Tom Holt, 2012-09-04 There are many reasons why British summers are either non-existent or, alternatively, held on a Thursday. Many of these reasons are either scientific, mad, or both-but all of them

are wrong, especially the scientific ones. The real reason why it rains perpetually from January 1st to December 31st is, of course, irritable Chinese Water Dragons. Karen is one such legendary creature. Ancient, noble, nearly indestructible and, for a number of wildly improbable reasons, working as a real estate agent, Karen is irritable quite a lot of the time. But now things have changed, and Karen's no longer irritable. She's furious.

Blockchain Chicken Farm Xiaowei Wang, 2020-10-13 A New York Times Book Review Editors' Choice A brilliant and empathetic guide to the far corners of global capitalism. --Jenny Odell, author of *How to Do Nothing* From FSGO x Logic: stories about rural China, food, and tech that reveal new truths about the globalized world In *Blockchain Chicken Farm*, the technologist and writer Xiaowei Wang explores the political and social entanglements of technology in rural China. Their discoveries force them to challenge the standard idea that

rural culture and people are backward, conservative, and intolerant. Instead, they find that rural China has not only adapted to rapid globalization but has actually innovated the technology we all use today. From pork farmers using AI to produce the perfect pig, to disruptive luxury counterfeits and the political intersections of e-commerce villages, Wang unravels the ties between globalization, technology, agriculture, and commerce in unprecedented fashion. Accompanied by humorous “Sinofuturist” recipes that frame meals as they transform under new technology, Blockchain Chicken Farm is an original and probing look into innovation, connectivity, and collaboration in the digitized rural world. FSG Originals × Logic dissects the way technology functions in everyday lives. The titans of Silicon Valley, for all their utopian imaginings, never really had our best interests at heart: recent threats to democracy, truth, privacy, and safety, as a result of tech’s reckless pursuit of progress, have shown as much. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom. Our collaboration features four brief but provocative forays into the tech industry’s many worlds, and aspires to incite fresh conversations about technology focused on nuanced and accessible explorations of the emerging tools that reorganize and redefine life today.
