We Are the Weather Jonathan Safran Foer,2019-09-17 In We Are the Weather, Jonathan Safran Foer explores the central global dilemma of our time in a surprising, deeply personal, and urgent new way. Some people reject the fact, overwhelmingly supported by scientists, that our planet is warming because of human activity. But do those of us who accept the reality of human-caused climate change truly believe it? If we did, surely we would be roused to act on what we know. Will future generations distinguish between those who didn't believe in the science of global warming and those who said they accepted the science but failed to change their lives in response? The task of saving the planet will involve a great reckoning with ourselves—with our all-too-human reluctance to sacrifice immediate comfort for the sake of the future. We have, he reveals, turned our planet into a farm for growing animal products, and the consequences are catastrophic. Only collective action will save our home and way of life. And it all starts with what we eat—and don't eat—for breakfast.

Tula Pink's City Sampler Tula Pink, 2013-04-17 Create a sampler quilt as unique as you are! Tula Pink gives you an inspiring quilt block collection with Tula Pink's City Sampler. Make a beautiful, modern quilt of your own design with the 100 original quilt blocks or try one of the 5 city-themed sampler quilts designed by Tula. A note from Tula: You will notice...that the blocks are not named but simply numbered. This is intentional. I may have designed the blocks and given you the instructions on what to cut and where to stitch, but I have not infused the blocks with any meaning. This is your quilt. The fabrics that you choose, the colors that you use and why you are making it are what will give the quilt a purpose. Name your blocks, write in the margins, cross out the ones that you don't like, draw hearts around the ones that you love. In a perfect world, everyone's book would end up looking like a journal, coffee stains and all. The more adventurous ones might rename the book and write their own introduction. Tula Pink's City Sampler is a collaboration between you and me. I am the platform and you are the speaker, so stand on my shoulders and tell the future who you are and why you make.
