M: Advertising David H. Schaefer,William F. Arens,Christian Arens,Michael F. Weigold,2014-04-09 M: Advertising 2e was created with students' and professors' needs in mind. It explores the core principles that drive advertising, using a lively voice that goes beyond academic theory. The authors' goal was to present advertising as it is actually practiced and make the fundamentals accessible and relevant to the student's "real life." This approach truly transcends the conceptual and propels students into an exciting and practical dimension. Students receive a cost - effective, easy to read, focused

text complete with study resources to help them review for tests and apply chapter concepts. Professors receive a text that contains all the pertinent information - yet in a more condensed format that is easier to cover by students. McGraw-Hill Connect assignments are provided to utilize the power of the web, providing application of concepts for students and automatically grade materials to support instructors.

Biology Mariëlle Hoefnagels, 2021-03 I have been teaching nonmajors biology at the University of Oklahoma since 1997 and over that time have encountered many students who fear science in general and biology in particular. The complexity, abstractions, and unfamiliar terms can seem overwhelming at first, but with practice, I know that anyone can think like a scientist. Learning to think scientifically is important well beyond passing your biology class. After all, scientific issues confront you every day as you navigate your life and your social media accounts. How do you know if a claim about climate change is scientific? Will you be able to identify misinformation and interpret graphs during the next global health crisis? This book will teach you not only to understand the scientific terms you encounter but also to distinguish good science from unscientific claims. I've created the following features to help you make the transition from memorizing facts to understanding concepts--from accepting scientific claims to analyzing them for yourself. These tools will help you to pass your class and to be an informed citizen--
