**The Hidden World of the Fox** Adele Brand,2019-10-22 Discover the hidden world of the fox, as beautifully revealed by an acclaimed ecologist who has studied foxes for two decades across four continents "An ode to this familiar yet mysterious creature. ... The sight of foxes can lift Brand's prose into poetry. ... By turns lyrical, salty, funny and scholarly." –New York Times Book Review The fox. For thousands of years myth and folklore have celebrated its cunning intelligence. Today the red fox is the nature's most populous carnivore, its dancing orange tail a common sight in backyards. Yet who is this wild neighbor, truly? How do we negotiate this uneasy new chapter of an ancient relationship? Join British ecologist Adele Brand on a journey to discover the surprising secrets of the fabled fox, the familiar yet enigmatic creature that has adapted to the human world with astonishing—some say, unsettling—success. Brand has studied foxes for twenty years across four continents—from the Yucatán rainforest to India's remote Thar Desert, from subarctic Canada to metropolitan London. Her observations have convinced her that the fox is arguably the most modern of all wildlife, uniquely suited to survival in the rapidly expanding urban/wild interface. Blending cutting-edge science, cultural anthropology, and intimate personal storytelling drawn from her own remarkable fieldwork, *The Hidden World of the Fox* is Brand's rich and revelatory portrait of the extraordinary animal she has devoted her life to understanding.

Literary Music Stephen Benson, 2017-03-02 Music is commonly felt to offer a valued experience, yet to put that experience into words is no easy task. Rather than view verbal representations of music as somehow secondary to the music itself, Literary Music argues that it is in such representations that our understanding of music and its meanings is constituted and explored. Focusing on recent fictional and theoretical texts, Stephen Benson proposes literature, narrative fiction in particular, as a singular form of musical performance. Literary Music concentrates not only on song and opera, those forms in which words and music overtly confront one another, but also on a small number of recurring ideas around which the literary and the musical interact, including voice, narrative, performance, and silence. The book considers a wide range of literary and theoretical texts, including those of Blanchot and Bakhtin, Kazuo Ishiguro, Vikram Seth, David Malouf and J.M. Coetzee. The musical forms discussed range from opera to the string quartet, together with individual works by Elgar, Strauss and Michael Berkeley. As such, Literary Music offers an informed interdisciplinary approach to the study of literature and music that participates in the lively theoretical debate on the status of meaning in music.
