Materada Fulvio Tomizza, Russell Scott Valentino, 2000 Francesco Koslovic—even his name straddles two cultures. And during the spring of 1955, in the village of Materada on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan history.

The Boundaries of Europe Pietro Rossi,2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. The Boundaries of Europe, edited by Pietro Rossi, is the first installment in the ALLEA book series Discourses on Intellectual Europe, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Partitive Determiners, Partitive Pronouns and Partitive Case Petra Sleeman, Giuliana Giusti, 2021-12-06 Although the interest in the concept of partitivity has continuously increased in the last decades and has given rise to considerable advances in research, the fine-grained morpho-syntactic and semantic variation displayed by partitive elements across European languages is far from being well-described, let alone well-understood. There are two main obstacles to this: on the one hand, theoretical linguistics and typological linguistics are fragmented in different methodological approaches that hinder the full sharing of cross-theoretic advances; on the other hand, partitive elements have been analyzed in restricted linguistic environments, which would benefit from a broader perspective. The aim of the PARTE project, from which this volume stems, is precisely to bring together linguists of different theoretical approaches using different methodologies to address this notion in its many facets. This volume focuses on Partitive Determiners, Partitive Pronouns and Partitive Case in European languages, their emergence and spread in diachrony, their acquisition by L2 speakers, and their syntax and interpretation. The volume is the first to provide such an encompassing insight into the notion of partitivity.

Co-operation Between the Sexes Alfred Adler, Heinz Ludwig Ansbacher, Rowena R. Ansbacher, 1982 Discusses relationships between men and women and types of deviant behavior often found in sex role adjustment

Gender, Discourse and Ideology in Italian Federica Formato, 2018-09-04 This book analyses gendered language in Italian, shedding light on how the Italian language constructs and reproduces the social imbalance between women and men, and presenting indirect and direct instances of asymmetrical constructions of gender in public and private roles. The author examines linguistic treatments of women in politics and the media, as well as the gendered crime of femminicidio, i.e. the killing of women by their (former) partners. Through the combination of corpus linguistics, surveys, and discourse analysis, she establishes a new approach to the study of gendered Italian, a framework which can be applied to other languages and epistemological sites. This book will be of particular interest to students and scholars of sociolinguistics, language and gender, discourse analysis, Italian and other Romance languages.

Hippocrates in Context P.J. van der Eijk, 2018-07-17 This collection of papers studies the Hippocratic writings in their relationship to the intellectual, social, cultural and literary context in which they were written, as well as the impact and reception of Hippocratic thought in later antiquity and the early modern period.

History of Architectural Conservation Jukka Jokilehto, 2007-06-07 A History of Architectural Conservation expands knowledge about the conservation of ancient monuments, works of art and historic buildings. It includes the origins of the interest in conservation within the European context, and the development of the concepts from Antiquity and the Renaissance to the present day. Jokilehto illustrates how this development has influenced international collaboration in the protection and conservation of cultural heritage, and how it has formed the principal concepts and approach to conservation and restoration in today's multi-cultural society. This book is based on archival research of original documents and the study of key restoration examples in countries that have influenced the international conservation movement. Accessible and of great interest to students and the general public it includes conservation trends in Europe, the USA, India, Iran and Japan.

Seneca the Elder and His Rediscovered ›Historiae ab initio bellorum civilium‹ Maria Chiara Scappaticcio, 2020-06-08 The refreshed insights into early-imperial Roman historiography this book offers are linked to a recent discovery. In the spring of 2014, the binders of the archive of Robert Marichal were dusted off by the ERC funded project PLATINUM (ERC-StG 2014 n°636983) in response to Tiziano Dorandi's recollections of a series of unpublished notes on Latin texts on papyrus. Among these was an in-progress edition of the Latin rolls from Herculaneum, together with Marichal's intuition that one of them had to be ascribed to a certain 'Annaeus Seneca'. PLATINUM followed the unpublished intuition by Robert Marichal as one path of investigation in its own research and work. Working on the Latin P.Herc. 1067 led to confirm Marichal's intuitions and to go beyond it: P.Herc. 1067 is the only extant direct witness to Seneca the Elder's *Historiae*. Bringing a new and important chapter of Latin literature arise out of a charred papyrus is significant. The present volume is made up of two complementary sections, each of which contains seven contributions. They are in close dialogue with each other, as looking at the same literary matter from several points of view yields undeniable advantages and represents an innovative and fruitful step in Latin literary criticism. These two sections express the two different but interlinked axes along which the contributions were developed. On one side, the focus is on the starting point of the debate, namely the discovery of the papyrus roll transmitting the *Historiae* of Seneca the Elder and how such a discovery can be integrated with prior knowledge about this historiographical work. On the other side, there is a broader view on early-imperial Roman historiography, to which the new perspectives opened by the rediscovery of Seneca the Elder's *Historiae* greatly contribute.

Space, Time and Language in Plutarch Aristoula Georgiadou, Katerina Oikonomopoulou, 2017-10-10 'Space and time' have been key concepts of investigation in the humanities in recent years. In the field of Classics in particular, they have led to the fresh appraisal of genres such as epic, historiography, the novel and biography, by enabling a close focus on how ancient texts invest their representations of space and time with a variety of symbolic and cultural meanings. This collection of essays by a team of international scholars seeks to make a contribution to this rich interdisciplinary field, by exploring how space and time are perceived, linguistically codified and portrayed in the biographical and philosophical work of Plutarch of Chaeronea (1st-2nd centuries CE). The volume's aim is to show how philological approaches, in conjunction with socio-cultural readings, can shed light on Plutarch's spatial terminology and clarify his conceptions of time, especially in terms of the ways in which he situates himself in his era's fascination with the past. The volume's intended readership includes Classicists, intellectual and cultural historians and scholars whose field of expertise embraces theoretical study of space and time, along with the linguistic strategies used to portray them in literary or historical texts.

Dirty Dom Willow Winters, 2016-05-27 Dominic Valetti is only interested in two things: getting paid and getting laid. He's a bookie for the Valetti crime family, and he knows his sh*t. Dom's busy doing business, no time to dabble in social niceties. The women that chase after him wanting more than a dirty, hard f*ck are only gonna get their hearts broken. That is, until Becca stumbles into his office to pay off her ex's debt. A hot brunette who's just as guarded as he is and has a body made for sin... and for him. They're not meant to be together. A woman like her shouldn't be with a man like him. He's mobbed up; she's a good girl who deserves better. When they push their boundaries and cave to temptation, they both forget about the danger. And that's a mistake a man like Dom can't afford. Will Dirty Dom risk it all to keep Becca safe, or will he live up to his name? This is a standalone, full-length mafia romance with a filthy-mouthed, possessive bad boy. Guaranteed HEA.

Italian Crime Fiction Giuliana Pieri, 2011-10-15 The present volume is the first study in the English language to focus specifically on Italian crime fiction, weaving together a historical perspective and a thematic approach, with a particular focus on the representation of space, especially city space, gender, and the tradition of impegno, the social and political engagement which characterised the Italian cultural and literary scene in the postwar period. The 8 chapters in this volume explore the distinctive features of the Italian tradition from the 1930s to the present, by focusing on a wide range of detective and crime novels by selected Italian writers, some of whom have an established international reputation, such as C. E. Gadda, L. Sciascia and U. Eco, whilst others may be relatively unknown, such as the new generation of crime writers of the Bologna school and Italian women crime writers. Each chapter examines a specific period, movement or group of writers, as well as engaging with broader debates over the contribution crime fiction makes more generally to contemporary Italian and European culture. The editor and contributors of this volume argue strongly in favour of reinstating crime fiction within the canon of Italian modern literature by presenting this once marginalised literary genre as a body of works which, when viewed without the artificial distinction between high and popular literature, shows a remarkable insight into Italy's postwar history, tracking its societal and political troubles and changes as well as often also engaging with metaphorical and philosophical notions of right or wrong, evil, redemption, and the search of the self.

Homelands and Diasporas Giorgia Foscarini, Dario Miccoli, Marcella Simoni, 2019-01-15 The volume brings together a collection of essays on Jewish-related subjects to celebrate Emanuela Trevisan Semi's career and research authored by some former students, friends and colleagues on the occasion of her retirement. Drawing upon the many academic interests and research of Trevisan Semi, one of the most important European scholars of Jewish and Israel Studies, the volume discusses the diversity of Jewish culture both in the diaspora and in Israel. The contributors here wrote their pieces understanding Jewish culture as inscribed in a set of different, yet interrelated, homelands and diasporas, depending on the time and space we refer to, and what this means for communities and individuals living in places as different as West Africa, Poland, Morocco, and Israel and the Occupied Palestinian Territories. At the same time, they discuss the notion of diaspora as being crucial in the formation of the Jewish cultural identity both before and after the birth of the State of Israel.
