Family Life, Family Law, and Family Justice Marsha Garrison, 2022-10-28 *Family Life, Family Law, and Family Justice: Tying the Knot* combines history, social science, and legal analysis to chart the evolution and interdependence of family life and family law, portray current trends in family life, explain the pressing policy challenges these trends have produced, and analyze the changes in family law that are essential to meeting these challenges. The challenges are large and pressing. Across the industrialized West, nonmarital birth, relational stress, multi-partner fertility, and relationship dissolution have increased, producing a dramatic rise in single parenthood, poverty, and childhood risk. This concentration of familial and economic risk accelerates socioeconomic inequality and retards intergenerational mobility. Although the divide is most pronounced in the United States, the same patterns now affect families throughout the Western world. Across the European Union, there are 9.2 million lone parents, and just under half of their families live in poverty. *Tying the Knot* demonstrates how today's family patterns are deeply rooted in long-standing, class-based differences in family life and explains why these class-based differences have accelerated. It explains how the values that guide family law development inevitably reflect the world in which families live and develops a new family law capable of meeting the needs of twenty-first century families. The book will be of considerable interest to family specialists from a number of fields, including law, demography, economics, history, political science, public health, social policy, and sociology.

**Viola Desmond's Canada** Graham Reynolds, 2016-03-30T00:00:00Z In 1946, Viola Desmond was wrongfully arrested for sitting in a whites-only section of a movie theatre in New Glasgow, Nova Scotia. In 2010, the Nova Scotia Government recognized this gross miscarriage of justice and posthumously granted her a free pardon. Most Canadians are aware of Rosa Parks, who refused to give up her seat on a racially segregated bus in Alabama, but Viola Desmond's act of resistance occurred nine years earlier. However, many Canadians are still unaware of Desmond's story or that racial segregation existed throughout many parts of Canada during most of the twentieth century. On the subject of race, Canadians seem to exhibit a form of collective amnesia. *Viola Desmond's Canada* is a groundbreaking book that provides a concise overview of the narrative of the Black experience in Canada. Reynolds traces this narrative from slavery under French and British rule in the eighteenth century to the practice of racial segregation and the fight for racial equality in the twentieth century. Included are personal recollections by Wanda Robson, Viola Desmond's youngest sister, together with important but previously unpublished documents and other primary sources in the history of Blacks in Canada. **Youth, Education, and Marginality** Kate Tilleczek, H. Bruce Ferguson, 2013-05-30 *Youth, Education, and Marginality: Local and Global Expressions* is a close examination of the lives of marginalized young people in schools. Essays by scholars and educators provide international insights grounded in educational and community practice and policy. They cover the range and intersections of marginalization: poverty, Aboriginal cultures, immigrants and newcomers, gay/lesbian youth, rural—urban divides, mental health, and so forth. Presenting challenges faced by marginalized youth alongside initiatives for mitigating their impact, the contributors critique existing systems and engage in a dialogue about where to go from here. Youth poetry, prose, and visual art complement the essays.

**The Fractured College Prep Pipeline** Heather E. Price, 2021 This book follows along all the stages in the college prep pipeline: from access in school to participation in classes to demonstration of mastery of the course content. Today's research focuses on the middle stage: who participates in the courses and who does not. Since the turn of the century, scholarly work in the US largely ignores the first part of the pipeline about whether or not students even have access to these courses in their districts. Nearly no studies address mastery, except for the College Board's own reporting on the issue--

Financial Crises Explanations, Types, and Implications Mr. Stijn Claessens, Mr. Ayhan Kose, 2013-01-30 This paper reviews the literature on financial crises focusing on three specific aspects. First, what are the main factors explaining financial crises? Since many theories on the sources of financial crises highlight the importance of sharp fluctuations in asset and credit markets, the paper briefly reviews theoretical and empirical studies on developments in these markets around financial crises. Second, what are the major types of financial crises? The paper focuses on the main theoretical and empirical explanations of four types of financial crises—currency crises, sudden stops, debt crises, and banking crises—and presents a survey of the literature that attempts to identify these episodes. Third, what are the real and financial sector implications of crises? The paper briefly reviews the short- and medium-run implications of crises for the real economy and financial sector. It concludes with a summary of the main lessons from the literature and future research directions.
