August Unknown Ava Bradley, 2015-07-16 Danger lurks in a past she can't remember... She doesn't know what happened the night of the storm, why she was walking along the highway without ID, or why she has a fading tan line on her wedding ring finger, but a dark and terrifying presence haunts the edge of her memory. Before she can start a new life with the wonderful man who came to her rescue, she must remember what in her past might take her away from him. Heartache lies in a past he can't forget... Blaming himself for his late wife's death, Geoffrey Barthlow has only begun to scrape together the pieces of his shattered life. When Jane Doe "August" falls into his world, he sees the opportunity to help her as a chance to heal his own soul. But as he finds himself falling for the beautiful mystery woman, he knows his heart is once again at risk; she has another life somewhere that she will eventually remember.

The October Light Of August Robert, As two sisters travel across state lines in a desperate quest to reunite with their family, they discover the journals of Arthur Jeffries - an unlikely survivor of the zombie apocalypse. A loner much of his life, he survived by staying away from the rest of humanity as it begins to disintegrate around him. Living in the territories of the dead isn't easy, but it's kept him alive - he knows what to expect from the dead. It's the living he avoids with a passion. Armed with a trusty spear and a dark sense of humor, he wrestles between wanting life to return to what it once was and his lost faith in humanity. As he journeys through his home town divided by a mighty river - both geographically and socially - he questions his own sanity in his isolated state. Burdened with guilt over the deaths of loved ones, can he ever hope to join any remnants of civilization that may be out there? Or is he fated to live the rest of his life with crows for companions and an improbable ally - the mindless (and very hungry) dead girl he only knows as Pink.

**Proceedings of the International Conference on Ubiquitous Computing & Ambient Intelligence (UCAmI 2022)** José Bravo,Sergio Ochoa,Jesús Favela,2022-11-20 This book reports a set of novel research initiatives on ambient intelligence and ubiquitous computing that help researchers and practitioners identify recent advances, as well as the frontiers in these study domains. During the last two decades, both study areas have gained great interest in industry and academia due to the benefits of using smart solutions in various application domains, such as health care, ambient-assisted living, personal security and privacy, citizen participation, provision of urban services, and precision agriculture and farming. The articles included in this book report solutions and provide empirical results on their suitability to address problems and opportunities in these application domains. The articles also include discussions on how the proposals and their evaluation results inform the design of the next generation of ubiquitous and smart systems. Researchers, practitioners, and graduate students take advantage of this knowledge to address innovation and engineering aspects of smart and ubiquitous solutions for the next decade.

*Insidious Threats* Melissa F. Miller,2023-05-23 Sasha and Connelly have faced off against murderers, terrorists, corrupt officials, and international crime rings ... you name a bad guy, and they've probably taken him (or her) down. In *Insidious Threats*, they team up against their most powerful adversary yet. But has the wife-and-husband duo finally met their match? When Landon Lewis plunged to his death from his office window, he left behind a slew of unanswered questions. The one that weighs most heavily on Leo Connelly's mind is what, exactly, is he supposed to do with the package Landon sent him the day he died? As a special agent for a secretive government agency, Leo has the connections and resources to crack open the encrypted flash drive, but the letter accompanying the drive gives him pause. The dead man's words are so cryptic, so ominous, so chilling, that Leo decides this is an operation best conducted off the books, far away from his agency's watchful eye—and his wife's. Under ordinary circumstances, Sasha McCandless-Connelly would notice when her husband is hiding something. Unfortunately, she's distracted by the behavior of her former law firm. When Prescott & Talbot's managing partner resigns abruptly, then disappears, the firm leaders come to Sasha—ostensibly for help. But she knows better than to trust them. As Sasha digs into the truth behind Cinco Prescott's disappearance, Leo unravels the mystery of Landon's flash drive. What they uncover separately leads to one inescapable conclusion: they'll have to work together to dismantle the dangerous, dystopian Mjólnir network without being detected ... or die trying.
