Sondra Brandler, Camille P. Roman

Group Activities for Families in Recovery Joan Zimmerman, Jon L. Winek, 2012-12-11 Group Activities for Families in Recovery offers therapists a wealth of activities designed to help families struggling with addiction address problem areas of functioning, and ultimately shift from dysfunctional patterns to healthy living. Written by expert practitioners in family-oriented substance abuse treatment, this text focuses on group therapy as a key component to treatment. The activities are varied and include topics presented through expressive arts (drawing, writing, acting), game-playing, problem solving, enactments, worksheets, and roleplaying. The activities can be used individually, incorporated into another program, or stand alone as a 16-week (or longer) program. They can also be adapted for use in groups where children or present, or for adult-family groups.

Direct Work with Family Groups Audrey Tait, Helen Wosu, 2015-09-21 Direct Work with Family Groups is full of great ideas to aid engagement, assessment and enable positive change through direct work with family groups. Working with families can be a challenging experience. This book looks at the personal skills needed to engage families, both at home and in the community. It

provides guidance on how to assess and manage the needs of individual family members, whilst also being mindful of potential risk factors. With easy to use activities and resources, this book will inspire you to think about creative new ways to plan and carry out your work. Based on tried and tested techniques, this is a must-have for social workers and social work students, as well as child protection workers, therapists, counsellors and child and family centre workers. It is the perfect complement to *Direct Work with Vulnerable Children*, also by the same authors.

Group Work in Schools Bradley T. Erford, 2023-11-23 The third edition of *Group Work in Schools* is designed to prepare counselors in school settings to successfully implement task, psycho-educational, and counseling groups in public and private educational settings. The chapters of this book are written by experts in the counseling profession and cover foundational, systemic, and applied topics essential to training top-caliber school counselors. Providing state of practice information and case examples that help readers see how theory translates to practice in the field, additions to this newly updated third edition include discussion topics, activities, case examples, practitioner perspectives, and integrated CACREP (2024) standards and

learning outcomes, as well as an overall update to reflect the most recent research and knowledge, including pandemic coverage and advances in technology. Updated comprehensively and thoughtfully and featuring a wide range of contributor perspectives, the much-anticipated third edition of this book is essential reading for school counselors-in-training.

Social Work and Family Violence Joan McClennen,

PhD, 2010-02-08 To competently serve families, social work

students must understand the theories and issues surrounding

family violence. This innovative textbook comprehensively

discusses three types of family violence: child abuse and

maltreatment, intimate partner violence, and elder abuse.

Discussions on assessments and interventions are provided for the

adult victims of family violence, adult survivors of child abuse, child

witnesses of domestic violence, adolescent victims of dating

violence, elderly victims, and perpetrators of abuse. Assessment

procedures and evidence-based treatments are also discussed.

This book also covers a broad range of vulnerable populations and

addresses their needs for particular services, legislative action, and

strategies for effective intervention. The book meets the criteria of

the Council on Social Work Education with its focus on ethics,

populations-at-risk, and diversity. Intended for both bachelor's- and master's-level social work students, this text includes a variety of features such as case studies from real-life stories of family violence in every chapter, key terms, discussion questions, and more. Key topics: Court structures and procedures, specialized court services for families experiencing violence, investigative interviewing, and social workers' roles within the judicial system Identifying and investigating child maltreatment, discussing symptoms and consequences, child interviewing, ethical dilemmas of mandated reporting, and the foster care system Intimate partner violence, including theoretical perspectives, laws and policies, financial costs, learned helplessness, the battered woman syndrome, orders of protection, mandatory arrest, and more Elder abuse, including an overview of theories, assessments, risk factors, Adult Protective Services, caregiver interventions, and more Instructor's Guide: Available as an electronic file, the instructor's guide features a sample syllabus suitable for a Family Violence course. It also features chapter objectives, questions (multiple choice, true/false, and discussion) and answers, and PowerPoint slides for each chapter. Well-Being in the Workplace: Governance and Sustainability

Insights to Promote Workplace Health Nicole Cvenkel, 2020-05-02

This book is intended for human resources management

academics, researchers, students, organizational leaders and

managers, HR Practitioners, and those responsible for helping

support employees in the 21st-century workplace. It offers a path

forward to create an environment that will not only build a healthier

workplace by providing appropriate and effective well-being interventions but also offers solutions to manage multi-generational and 'holistic' employees within the employment relationship. The book describes the factors that promote healthy and WELL organizations and introduces concepts and strategies to reduce workplace stress and mental health issues and improve workplace well-being toward sustained organizational success. Employers that embrace the corporate responsibility of promoting the health and well-being of multi-generational, holistic employees will reap cost savings, employee engagement, and productivity advantages, as well as a healthier and more productive workforce.

Children Who See Too Much Betsy Mcalister

Groves,2003-01-20 For the last ten years Betsy Groves has been working with children traumatized by witnessing violence. In this book she shows how children understand, respond to, and are affected by violence, especially domestic violence. Groves makes the powerful case that traumatic events carried out by family members carry the most severe psychological risks for very young children. She uses clinical case studies to show that being young does not protect against the lasting effects of witnessing violence, and she offers ways adults can help.

Feminist Counselling and Domestic Violence in India Padma

Bhate-Deosthali, Sangeeta Rege, Padma Prakash, 2020-11-29

Mainstream counselling in domestic violence often fails to address critical issues, such as gender socialisation processes and the abuse of power that allows violence against women, and focuses primarily on the intra-psychic nature of individual women. In contrast, feminist counselling is an effective alternative model, owing to its ability to address the fundamental correlation of abuse with power. In going beyond the individual, it helps women locate the source of their distress in the larger social context of power and control, manifesting in intimate, interpersonal relationships, and enables them to resist systemic oppression. This volume offers one of the first systematic documentations of feminist psychosocial interventions in India. It situates the issue of domestic violence in the historical context of the women's movement, and examines institutional factors such as family and marriage that perpetuate abuse. Using extensive case studies, it discusses the methods, principles, techniques, skills and procedures followed by feminist organisations across the country, and their role in women's empowerment. The book will serve as a practical reference guide to practitioners such as social workers, counsellors and para-

counsellors, health activists, grassroots workers, protection officers and service providers. It will also be useful to scholars and students of psychology, sociology, women's studies, law and public policy.

The Teen Relationship Workbook Kerry Moles, 2001 This workbook is for therapists, counselors, and other professionals working with young people to prevent or end relationship abuse. Designed to teach teens to recognize the warning signs in relationship abuse and develop skills for healthy relationships.

Supporting Women After Domestic Violence Hilary Abrahams, 2007 usive relationship - including post traumatic stress disorder.

Group Work Sondra Brandler, Camille P. Roman, 2015-06-26 The new edition of Group Work adds a focus on diversity and the use of self in group work, an area too often neglected in professional training but essential to meeting current competence standards set by the Council on Social Work Education. As in previous editions, students and professors will find thoughtful analyses of complicated value dilemmas and specific techniques for use in a diverse range of settings, including confrontations and situations where humor is appropriate. Complete with more games

and exercises, an updated discussion of values and ethics, and an expanded skills section, Group Work also contains excerpts and discussions of case studies that can be applied to students' own experiences and will serve as a valuable references for years to come.

Domestic Violence and Protecting Children Cathy

Humphreys,Nicky Stanley,2015-08-21 In this volume, the authors present an overview of the innovative work taking place in relation to domestic violence and child protection. This book looks at new prevention initiatives and how interventions for children exposed to domestic violence have been developed. It shows how services for abusive fathers have evolved and provides discussion and critique of a number of new initiatives in the field of interagency risk assessment. With international perspectives and examples drawn from social care, health care and voluntary sectors, this book brings together established ideas with recent thinking to provide an authoritative summary of current domestic violence and child protection practice. As a valuable source of guidance on how to work safely with children living with domestic violence, this is a key reference for social workers, health professionals and policy makers.

Play Therapy Today Eileen Prendiville,Justine

Howard,2014-06-20 Play Therapy Today brings together the work of renowned practitioners and academics currently working and researching in therapeutic play and play therapy, and presents a range of ground-breaking methods for practising with groups, individuals, and parents and carers. Providing an overview of new or revitalised topics in play therapy, each chapter presents the relevant theoretical underpinnings and principles of practice, a guide to implementing the method and case study vignettes of the approach in practice. The three sections include chapters on: the Therapeutic Touchstone model and the development of the therapeutic relationship, an overview of the use of individual play therapy techniques with children in a hospital setting, and an overview of Yassenik and Gardner's Play Therapy Dimensions Model with an in-depth exploration of the dimension of consciousness from both a theoretical and practical, play-based orientation. Jennings' Embodiment-Project-Role model and its implementation in group work, the practical use of puppets in educational and therapeutic settings, the therapeutic value of working with groups in the outdoors, and the use of play in groups for children with a variety of sensory, intellectual and physical

disabilities. Stagnitti's adaptation of the 'Learn to Play' programme for parent/carer use, Group Theraplay with peer groups and parent/child dyads and how a neurosequential approach supports case conceptualization and play therapy practice with families. The book provides practitioners with up-to-date, effective and practical techniques that they can put into immediate use in their clinical work with children and their families. It is an important resource for trainee, newly qualified and seasoned play therapists, play therapy supervisors and trainers. It will also be of interest to social workers, teachers, psychologists, child psychotherapists and other health professionals.

Hearing on Domestic Violence United States. Congress. House. Committee on Education and Labor. Subcommittee on Select Education, 1982

Ending Domestic Violence Ethel Klein, 1997-09-03 To better understand the role of cultural context as it relates to domestic violence, three experts in the field - each a woman of color herself - were invited to collaborate on a chapter detailing the results of their research in African American, Latino, and Asian American populations. Featuring this enriching ethnic perspective, the authors consider the implications for change the research could have on

public opinion and behavior.

The Routledge Handbook of Social Work Practice Research

Lynette Joubert, Martin Webber, 2020-04-13 The Routledge

Handbook of Social Work Practice Research is the first international handbook to focus on practice research for social work. Bringing together leading scholars in the field from Europe, the USA and the Asia Pacific region, it provides an up-to-the minute overview of the latest thinking in practice research whilst also providing practical advice on how to undertake practice research in the field. It is divided into five sections: State of the art Methodologies Pedagogies Applications Expanding the frontiers The range of topics discussed will enhance student development as well as increase the capacity of practitioners to conduct research; develop coordinating and leadership roles; and liaise with multiple stakeholders who will strengthen the context base for practice research. As such, this handbook will be essential reading for all social work students, practitioners and academics as well as those working in other health and social care settings.
