Global Trends 2040 National Intelligence Council, 2021-03 The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come. -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

Tender Victories Faith Yvonne James, 2023-02-09 This is a gripping novel from the start. Colin and her guard dog, Bosch, have found evidence to indicate someone has been in their beach house. Should Colin have listened to her family? Colin hopes to be a godly example to a new acquaintance (Jessie), when conditions change things. Colin returns to the beach house after surgery from a fall, and a young native boy appears at the door, hoping for a family. Jacob, a distant neighbor (staying with his sister Amy), is fluent in Spanish; so Colin and Jessie make plans to ask him to dinner, hoping he can translate what Pedro is trying to tell them. As the story unravels, they all fall in love with a young boy, Pedro, including Jacob's sister, Amy. They cannot find any relative to claim him. But now that a family in town wants to adopt him, how is Jacob going to fix this problem? He loves Pedro, a son he was unable to have. What will Jessie do if her husband comes looking for her? Meanwhile, the plot takes a sudden turn when the outside cottage wall caves in while Colin is in the shower. The excitement is just beginning as God changes hearts, giving tender victories.

Plunkett's Investment & Securities Industry Almanac Jack W. Plunkett, 2008 The investment and securities industry is rebounding from the dismal markets of the early 2000s. Improved corporate profits, low interest rates and efforts to improve corporate governance have led the way, despite recent scandals in the mutual funds industry. Meanwhile, the investment industry is increasingly a global business. This is partly due to the needs of multinational corporations to list their stocks or issue debt in more than one nation. For example, ADRs (American Depository Receipts) are increasingly popular instruments. Cross-border investments and acquisitions continue at a rapid pace. Discount brokerages are enjoying improved levels of trading, while investment banks are developing new ways to create lucrative fees. This carefully-researched book (which includes a database of leading companies on CD-ROM) is a complete investments, securities and asset management market research and business intelligence tool -- everything you need to know about the business of investments, including: 1) Investment banking, 2) Stock brokers, 3) Discount brokers, 4) Online brokers, 5) Significant trends in financial information technologies, 6) Asset

management, 7) Stock ownership by individuals and households, 8) 401(k)s and pension plans, 9) Mutual funds, 10) ETFs (Exchange traded funds), 11) ECNs (Electronic Communication Networks), 12) Developments at the NYSE and other exchanges. The book includes a complete chapter of vital industry statistics, an industry glossary, a complete list of industry contacts such as industry associations and government agencies, and our in-depth profiles of more than 300 leading firms in the investment and asset management business. A CD-ROM database of these firms is included with the book.

Harmonies of Political Economy Frédéric Bastiat, 2023-07-18 In 'Harmonies of Political Economy', Bastiat provides a powerful critique of industrialization and the modern economic system. Through his sharp wit and incisive analysis, Bastiat exposes the contradictions and weaknesses of contemporary economic theory, arguing that true prosperity and harmony can only be achieved through a return to traditional values and principles. Twentieth-Century Building Materials Thomas C. Jester, 2014-08-01 Over the concluding decades of the twentieth century, the historic preservation community increasingly turned its attention to modern buildings, including bungalows from the 1930s, gas stations and diners from the 1940s, and office buildings and architectural homes from the 1950s. Conservation efforts, however, were often hampered by a lack of technical information about the products used in these structures, and to fill this gap *Twentieth-Century Building Materials* was developed by the U.S. Department of the Interior's National Park Service and first published in 1995. Now, this invaluable guide is being

reissued—with a new preface by the book’s original editor. With more than 250 illustrations, including a full-color photographic essay, the volume remains an indispensable reference on the history and conservation of modern building materials. Thirty-seven essays written by leading experts offer insights into the history, manufacturing processes, and uses of a wide range of materials, including glass block, aluminum, plywood, linoleum, and gypsum board. Readers will also learn about how these materials perform over time and discover valuable conservation and repair techniques. Bibliographies and sources for further research complete the volume. The book is intended for a wide range of conservation professionals including architects, engineers, conservators, and material scientists engaged in the conservation of modern buildings, as well as scholars in related disciplines.
