**The Persian Sphinx** Abbas Milani,2009 Amir Abbas Hoveyda was a central figure in the historic struggle between modernity and tradition in Iran-a struggle pitting Western cosmopolitanism against Persian isolationism, secularism against religious fundamentalism and ultimately civil society and democracy against authoritarianism...In telling the story of Hoveyda's life, the author has not only laid bare the development of Iranian society during a pivotal period (1919-1978) but has also unearthed important new materials on U.S.-Iranian relations... -- p. The Persian Empire Lindsay Allen,2005 Lavish illustrations bring to life the traditions of this ancient Middle Eastern civilization and finally place Alexander's invasion within a Persian context. This text promises to be a definitive work on one of the most powerful dynasties in ancient history.

Ancient Persia Matt Waters,2014-01-20 The Achaemenid Persian Empire, at its greatest territorial extent under Darius I (r.522-486 BCE), held sway over territory stretching from the Indus River Valley to southeastern Europe and from the western Himalayas to northeast Africa. In this book, Matt Waters gives a detailed historical overview of the Achaemenid period while considering the manifold interpretive problems historians face in constructing and understanding its history. This book offers a Persian perspective even when relying on Greek textual sources and archaeological evidence. Waters situates the story of the Achaemenid Persians in the context of their predecessors in the mid-first millennium BCE and through their successors after the Macedonian conquest, constructing a compelling narrative of how the empire retained its vitality for more than two hundred years (c.550-330 BCE) and left a massive imprint on Middle Eastern as well as Greek and European history.

**Israeli Foreign Policy** Uri Bialer,2020-03-03 Uri Bialer lays a foundation for understanding the principal aspects of Israeli foreign policy from the early days of the state's existence to the Oslo Accords. He presents a synthetic reading of sources, many of which are recently declassified official

documents, to cover Israeli foreign policy over a broad chronological expanse. Bialer focuses on the objectives of Israel's foreign policy and its actualization, especially as it concerned immigration policy, oil resources, and the procurement of armaments. In addition to identifying important state actors, Bialer highlights the many figures who had no defined diplomatic roles but were influential in establishing foreign policy goals. He shows how foreign policy was essential to the political, economic, and social well-being of the state and how it helped to deal with Israel's most intractable problem, the resolution of the conflict with Arab states and the Palestinians.

*Forgotten Empire* Béatrice André-Salvini, 2005 A richly-illustrated and important book that traces the rise and fall of one of the ancient world's largest and richest empires.

**States and Social Revolutions** Theda Skocpol, 2015-09-29 State structures, international forces, and class relations: Theda Skocpol shows how all three combine to explain the origins and accomplishments of social-revolutionary transformations. Social revolutions have been rare but undeniably of enormous importance in modern world history. *States and Social Revolutions* provides a new frame of reference for analyzing the causes, the conflicts, and the outcomes of such revolutions. It develops a rigorous, comparative historical analysis of three major cases: the French Revolution of 1787 through the early 1800s, the Russian Revolution of 1917 through the 1930s, and the Chinese Revolution of 1911 through the 1960s. Believing that existing theories of revolution, both Marxist and non-Marxist, are inadequate to explain the actual historical patterns of revolutions, Skocpol urges us to adopt fresh perspectives. Above all, she maintains that states conceived as administrative and coercive organizations potentially autonomous from class controls and interests must be made central to explanations of revolutions.

**Qajar Iran and the Rise of Reza Khan, 1796-1925** Nikki R. Keddie, 1999 Nikki R. Keddie is Professor Emerita of History at UCLA and fellow of the American Academy of Arts and Sciences.

*Patriot of Persia* Christopher de Bellaigue, 2012-05-15 Christopher de Bellaigue, a former contributor to *The Economist*, brings to light the fascinating story of one of the great anti-colonial heroes of the twentieth century: Muhammad Mossadegh, the great Iranian leader whose untimely demise resulted in the Islamic Revolution of 1979, and a man who has been demonized, ridiculed, and misunderstood in the West while remaining an icon and an inspiration across the Middle East. *Patriot of Persia*, a new biography exploring his life and impact, opens a crucial new window into Mossadegh—whose role in the evolution of Iran's political climate cannot be overemphasized—providing a resource that will prove equally invaluable to academics, newshounds, and activists as they struggle to understand Mideast politics, Iran, Ahmadinejad, and the future of the region—and the world.

**The Two Eyes of the Earth** Matthew P. Canepa, 2017-03-10 This pioneering study examines a pivotal period in the history of Europe and the Near East. Spanning the ancient and medieval worlds, it investigates the shared ideal of sacred kingship that emerged in the late Roman and Persian empires. Bridging the traditional divide between classical and Iranian history, this book brings to life the dazzling courts of two global powers that deeply affected the cultures of medieval Europe, Byzantium, Islam, South Asia, and China.

*Khomeini* Baqer Moin, 2015-03-31 The Ayatollah Khomeini was the most radical Muslim leader of this age. In transforming himself from a traditional Muslim theologian into the charismatic Iranian ruler who took on the world, Khomeini launched an Islamic revival movement that, with the collapse of communism, quickly evolved for some as the centre-piece in the pantheon of western demonology, and for others as the inspiration for spiritual and political rebirth. Whether viewed as a hero by his supporters or as a villain by his enemies, Khomeini was undoubtedly one of the seminal figures of the twentieth century, whose influence will extend some way into the new millennium. Baqer Moin here explores how and why this frail octogenarian, dressed in the traditional robes of a Muslim cleric, overthrew the secular Shah of Iran and became the spiritual leader of a new and militant Islamic regime. Still an enigma in the West, Khomeini transformed the Middle East and the world. But where did the man come from? What was his childhood

and family background? What lay behind his implacable opposition to the Shah? What role did the turbulent events in Iran during his youth play in shaping Khomeini's political perceptions? What changed him from an obscure traditional theologian with mystical and poetic inclinations into a combative and highly vengeful radical? How will his vision of an international community of Muslims, a kind of Islamic Internationale, affect the Middle East? Drawing on many exclusive personal interviews with Khomeini's associates, on unpublished new materials and on the author's firsthand experience in Islamic seminaries, this biography provides a fascinating, well-documented and highly accessible analysis of the life and thought of one of the most controversial leaders of the late twentieth century.

**The Soul of Iran: A Nation's Struggle for Freedom** Afshin Molavi, 2010-07-12 The truths about Iran; quite different truths from versions put forward by Washington, Tehran, and the media. Iran thundered onto the world stage in 1979 with an Islamic revolution that shook the world. Today that revolution has gone astray, a popular democracy movement boldly challenges authority, and young Iranians are more interested in moving to America than in chanting *Death to America*. Afshin Molavi, born in Iran and fluent in Persian, traveled widely across his homeland, exploring the legacy of the Iranian revolution and probing the soul of Iran, a land with nearly three millennia of often-glorious history. Like a master Persian carpet maker, Molavi weaves together threads of rich historical insight, political analysis, cultural observation, and the daily realities of life in the Islamic republic to produce a colorful, intricate, and mesmerizing narrative. Originally published in hardcover under the title *Persian Pilgrimages*, this paperback edition is revised, with a new introduction and epilogue.

**Aryan Idols** Stefan Arvidsson, 2006-09-15 Critically examining the discourse of Indo-European scholarship over the past two hundred years, *Aryan Idols* demonstrates how the interconnected concepts of “Indo-European” and “Aryan” as ethnic categories have been shaped by, and used for, various ideologies. Stefan Arvidsson traces the evolution of the Aryan idea through the nineteenth century—from its roots in Bible-based classifications and William Jones’s discovery of commonalities among Sanskrit, Latin, and Greek to its use by scholars in fields such as archaeology, anthropology, folklore, comparative religion, and history. Along the way, Arvidsson maps out the changing ways in which Aryans were imagined and relates such shifts to social, historical, and political processes. Considering the developments of the twentieth century, Arvidsson focuses on the adoption of Indo-European scholarship (or pseudoscholarship) by the Nazis and by Fascist Catholics. A wide-ranging discussion of the intellectual history of the past two centuries, *Aryan Idols* links the pervasive idea of the Indo-European people to major scientific, philosophical, and political developments of the times, while raising important questions about the nature of scholarship as well.

*The Ancient History of the Near East, from the Earliest Times to the Battle of Salamis* Harry Reginald Hall, 1960

*The Septembers of Shiraz* Dalia Sofer, 2007-07-24 In the aftermath of the Iranian revolution, rare-gem dealer Isaac Amin is arrested, wrongly accused of being a spy. Terrified by his disappearance, his family must reconcile a new world of cruelty and chaos with the collapse of everything they have known. As Isaac navigates the tedium and terrors of prison, forging tenuous trusts, his wife feverishly searches for him, suspecting, all the while,

that their once-trusted housekeeper has turned on them and is now acting as an informer. And as his daughter, in a childlike attempt to stop the wave of baseless arrests, engages in illicit activities, his son, sent to New York before the rise of the Ayatollahs, struggles to find happiness even as he realizes that his family may soon be forced to embark on a journey of incalculable danger. A page-turning literary debut, *The Septembers of Shiraz* simmers with questions of identity, alienation, and love, not simply for a spouse or a child, but for all the intangible sights and smells of the place we call home.
