Ask a Manager Alison Green,2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

*A Letter from Your Teacher* Shannon Olsen,2022-03 From the author and illustrator of *Our Class is a Family*, this touching picture book expresses a teacher's sentiments and well wishes on the last day of school. Serving as a follow up to the letter in *A Letter From Your Teacher: On the First Day of School*, it's a read aloud for teachers to bid a special farewell to their students at the end of the school year. Through a letter written from the teacher's point of view, the class is invited to reflect back on memories made, connections formed, and challenges met. The letter expresses how proud their teacher is of them, and how much they will be missed. Students will also leave on that last day knowing that their teacher is cheering them on for all of the exciting things to come in the future. There is a blank space on the last page for teachers to sign their own name, so that students know that the letter in the book is coming straight from them. With its sincere message and inclusive illustrations, *A Letter From Your Teacher: On the Last Day of School* is a valuable addition to any elementary school teacher's classroom library.

**No More Teaching a Letter a Week** Rebecca McKay,William H. Teale,2015 Letter-a-week may be a ubiquitous approach to teaching alphabet knowledge, but that doesn't mean it's an effective one. In *No More Teaching a Letter a Week*, early literacy researcher Dr. William Teale helps us understand that alphabet knowledge is more than letter recognition, and identifies research-based principles of effective alphabet instruction, which constitutes the foundation for phonics teaching and learning. Literacy coach Rebecca McKay shows us how to bring those principles to life through purposeful practices that invite children to create an identity through print. Children can and should do more than glue beans into the shape of a B; they need to learn how letters create words that carry meaning, so that they can, and do, use print to expand their understanding of the world and themselves.

**Behavior Therapy with Children II** Anthony M. Graziano,2008-10-01 The term behavior modification refers to the systematic analysis and change of human behavior and the principal focus is on overt behavior and its relationships to environmental variables. Behavior modification can be applied in many settings, the nature of which helps to define its subsets. Thus, applied in clinical settings, toward clinical goals, it encompasses the subset behavior therapy. In Behavior Therapy with Children, Volume 2, Anthony M. Graziano focuses on behavior therapy--specifically, the behavioral treatment of children's clinical problems. The field of behavior modification encompasses an astonishingly wide and varied spectrum of concepts about and approaches to education, clinical problems, social programming, and rehabilitation efforts. A conceptually and technologically rich medium, it has been nourished by the psychology laboratory, the school, and the psychiatric clinic. It is an area with diffuse boundaries surrounding a highly active center, within which apparently solid landmarks have already been worn away by the dissolving action of corrective self-criticism--immeasurably aided by the catalysts stirred in by the field's many critics. The activity continues, the dynamic field boils, and the medium enriches itself. There appears to be a tendency, particularly among new behavior therapists, to limit their focus too narrowly to the client's systems of overt behavior. In this project, psychological therapy begins with a personal, interactive social situation in which the generally expected human response of interest, sympathy, and support, is the minimum condition. Graziano maintains that these clinical sensitivity skills must be preserved in behavior therapy and enhance its important contribution to advancing the therapeutic endeavor. Anthony M. Graziano is professor emeritus in the Department of Psychology, State University of New York at Buffalo. He has published a number of articles in journals on subjects such as teaching machine programs, behavior therapy with children, diagnostic testing, the history of psychology, and evaluations of the contemporary mental health professions. He has been on the editorial board of Behavior Modification and on the board of directors for the Eastern Psychological Association.
