Core Macroeconomics + Economics Sapling Access Card (6 Month) Gerald Stone,Sapling Learning,Eric Chiang,2012-07-01

Loose-leaf Version for Economics in Modules Paul Krugman,Robin Wells,Margaret Ray,David A. Anderson,2014-05-16 Adapted by Paul Krugman and Robin Wells from their bestselling principles of economics textbook, Economics in Modules is the only text for the principles course organized in the supremely accessible, highly effective modular format. Instead of chapters of standard length, the book covers the fundamentals of economics in 84 brief (4-10 page) modules divided into 26 sections. Economics in Modules offers the best of what makes Krugman/Wells a classroom favorite (story-telling approach, engaging writing, fascinating examples and cases), in a format students and instructors will love. Extensive educational research shows that students absorb more from shorter reading assignments than longer ones. And with coverage in self-contained modules, instructors can assign specific topics without asking students to read entire chapters.

CoreEconomics Eric Chiang,2013-12-09 With this new edition, Eric Chiang transforms CoreEconomics into a text/media resource well attuned to today's students. Long active in the economics education community, Chiang brings a contemporary teacher's perspective to the book, supporting a variety of learning approaches by introducing modern topics, new pedagogy, a more visual presentation, and well-integrated media tools. All this while maintaining the book's defining focus on just those topics instructors cover most often in the course.

Economics Paul Krugman,Robin Wells,2015-03-30 When it comes drawing on enduring economic principles to explain current economic realities, there is no one readers trust more than Paul Krugman. With his bestselling introductory textbook (now in a new edition) the Nobel laureate and New York Times columnist is proving to be equally effective in the classroom, with more and more instructors in all types of schools using Krugman's signature storytelling style to help them introduce the fundamental principles of economics to all kinds of students.

Modern Principles of Economics Tyler Cowen,Alex Tabarrok,2018-01-18 Engaging and provocative writing, as well as a knack for revealing the 'invisible hand' of economics at work has made Tyler Cowen and Alex Tabarrok's text a singularly distinctive and effective text for principles modules. Modern Principles of Economics places an emphasis throughout on the power of incentives which underscores how economics helps us understand why we do what we do (in other words, the decisions we make in the face of incentives in the real world). The new edition retains its progressive approach to economic modelling and applications which allows for a more realistic interpretation of today's world events. Mirroring the authors' successful blog, the text eschews boxed features to focus on the writing behind compelling examples, key concepts, and applications.

Essentials of Economics Paul Krugman,Robin Wells,Kathryn Graddy,2013-12-01 Adapted by Kathryn Graddy, Essentials of Economics brings the captivating storytelling approach, real-world applications, and innovative features of Paul Krugman and Robin Wells' Economics to the one-term economics course. It is the ideal text for teaching basic economic principles in a single term, distilling the increasingly popular Krugman/Wells text down to what is truly essential. The new edition is the most accessible yet--thoroughly updated with current topics and examples, and with new cases that are especially appealing to business students. See what's in the LaunchPad

Developing criteria and indicators of community managed forests as assessment and learning tools: objectives, methodologies and results Nicolette Burford de Oliveira, Cynthia McDougall, Bill Ritchie, Herlina Hartanto, Mandy Haggith, Titiek Setyawati, 2000 This report explores criteria and indicators (C&I) for monitoring and assessing the sustainability of community managed forests (CMFs), and offers some insights into methodological tools and conceptual approaches for C&I development. The research was intended to explore the potential value of C&I to forest communities, their partners and their representative organisations to legitimise and enhance management, including strengthening of control over forest resources and facilitating the equitable distribution of the costs and benefits of forest management. The C&I for CMF tests involved six forest communities and their partners in Central Province, Cameroon, the Amazonian state of Pará, Brazil, and West Kalimantan, Indonesia. Each test was of approximately one-month duration. The core teams included an ecologist, a social scientist and a forest management specialist. Local involvement was an essential element of the research process. Facilitators enabled the active participation of community members in the critical appraisal of the C&I. After each field test, academics, policy makers, representatives of local and national non-governmental organisations, and representatives of other forest communities reviewed the emergent 'draft' C&I. Over 750 statements of principles, criteria, indicators and verifiers were generated by the tests. There is an evaluation of C&I testing processes and C&I for CMF development methodologies, as well as an analysis of the C&I for CMF. The comprehensive coverage of issues related to the sustainability of CMFs makes this report a valuable reference for those interested in implementing C&I for CMF, and for other users and purposes. These may include: researchers or policy makers analysing intersectoral impacts on CMFs; practitioners assessing and developing collaborative CMF initiatives; development planners and project managers evaluating or planning initiatives; and professors seeking guidance on incorporating community forestry into curricula for rural development, forestry and anthropology students.
