**Stuffocation** James Wallman, 2015-03-17 Stuffocation is a movement manifesto for “experiential” living, a call to arms to stop accumulating stuff and start accumulating experiences, and a road map for a new way forward with the potential to transform our lives. Reject materialism. Embrace experientialism. Live more with less. Stuffocation is one of the most pressing problems of the twenty-first century. We have more stuff than we could ever need, and it isn't making us happier. It's bad for the planet. It's cluttering up our homes. It's making us stressed—and it might even be killing us. A rising number of us are already turning our backs on all-you-can-get consumption. We are choosing access over ownership, and taking our business to companies like Zipcar, Spotify, and Netflix. Fed up with materialism, we are ready for a new way forward. Trend forecaster James Wallman traces our obsession with stuff back to the original Mad Men, who first created desire through advertising. He interviews anthropologists studying the clutter crisis, economists searching for new

ways of measuring progress, and psychologists who link stuffocation to declining well-being. And he introduces us to the innovators who are already living more consciously and with more meaning by choosing experience over stuff. Experientialism does not mean giving up all of our possessions. It is a solution that is less extreme but equally fundamental. It's about transforming what we value. Stuffocation is a paradigm-shifting look at our habits and an inspiring call for living more with less. It's the one important book you won't be able to live without. Praise for *Stuffocation* "The revelations come fast and furious as he asserts that acquiring 'stuff' is often just an easy way to ignore the tougher questions of life, dodging 'why am I here?' and 'how should I live?' for 'will that go with the top I bought last week?' Tart and often funny . . . [*Stuffocation*] will be an eye-opener for those long ago persuaded that more is better. A scintillating read that will provoke conversation (or at least closet cleaning)." —Booklist "James Wallman deftly hits upon a major insight for our times: that acquiring 'stuff' and 'things' is not nearly as meaningful as collecting experiences. Some of the happiest days of my life were when I had nothing and lived on a houseboat. Without stuff to tie me down, I felt completely free." —Blake Mycoskie, founder of TOMS and author of the New York Times bestseller *Start Something That Matters* "A must-read . . . We think that more stuff will make us happier, but as the book nicely shows, we're just plain wrong. A great mix of stories and science, *Stuffocation* reveals the downside of more, and what we can do about it." —Jonah Berger, author of the New York Times bestseller *Contagious* "Wallman offers a deeply important message by weaving contemporary social science into very engaging stories. Reading the book is such a pleasure that you hardly recognize you're being told that you should

change how you live your life.”—Barry Schwartz, author of *The Paradox of Choice* “With a sociologist’s eye and a storyteller’s ear, Wallman takes us on a tour of today’s experience economy from the perspective not of businesses, nor even of consumers per se, but of everyday people.”—B. Joseph Pine II and James H. Gilmore, authors of *The Experience Economy*

**The BBC** Tom Mills,2020-10-13 The BBC: the mouthpiece of the Establishment? The BBC is one of the most important institutions in Britain; it is also one of the most misunderstood. Despite its claim to be independent and impartial, and the constant accusations of a liberal

bias, the BBC has always sided with the elite. As Tom Mills demonstrates, we are only getting the news that the Establishment wants aired in public. Throughout its existence, the BBC has been in thrall to those in power. This was true in 1926 when it stood against the workers during the General Strike, and since then the Corporation has continued to mute the voices of those who oppose the status quo: miners in 1984; anti-war protesters in 2003; those who offer alternatives to austerity economics since 2008. From the outset much of its activity has been scrutinised by the secret services at the invitation of those in charge. Since the 1990s the BBC has been integrated into the market, while its independence from government and big business has been steadily eroded. The BBC is an important and timely examination of a crucial public institution that is constantly under threat.
