Cannibal Serial Killers Christopher Berry-Dee, Victoria Redstall, 2011-05-10 Dive inside the twisted minds of some of the most heinous serial killers in history with this true-crime trove of stories about cannibalistic murderers. Delving deep into the twisted actions of Hannibal Lecter-type murderers, *Cannibal Serial Killers* profiles the depraved individuals who prolong their horrific crimes beyond the thrill of the chase to a perverse ritualized finale. More than just stomach-churning stories, this terrifying book provides precise accounts and fascinating insights into the crimes of fourteen cannibalistic killers from all over the world, including: ALBERT FISH, who spent nine days feasting on the remains of an innocent little girl JEFFREY DAHMER, whose refrigerator was packed with the body parts of his seventeen victims ANDREI CHIKATILO, who brutally slayed and dismembered fifty-three people in southeastern Russia FRITZ HAARMANN, who drank his victims' blood and sold their flesh on the black market STANLEY BAKER, who cut out a young man's heart and devoured it while it was still beating JOACHIM KROLL, who cooked a stew of carrots, potatoes and a small child's hand

Serial Killers Nigel Blundell, 2020 Mass murder is dreadful enough, yet that is not sufficient a thrill for those evil monsters for whom the excitement begins once their victims are dead. This book - a companion volume to *Serial Killers: The World's Most Evil* - deals with multiple murderers who not only slay to slake their perverted pleasures but also mutilate and even cannibalise their victims' bodies. There is nothing new about this, the sickest serial killer of all was Jack the Ripper - and murderous maniacs have been slashing their bloody path through history ever since. A leading forensic psychiatrist describes this syndrome as 'the total annihilation of a human being by another human being willing to trample on this most sacred prohibition in the social code'. These butchers who dismember for pleasure have been the inspiration for the fictional monster of *Psycho*, *The Texas Chain Saw Massacre* and *The Silence of the Lambs*. The killers who spawned such movies all appear in this book. But, sadly, none of the horrors reported within these pages are fiction. So dare to delve behind the horrifying headlines ... and examine what is in the minds of the world's most murderous, butchering monsters.

Jeffrey Dahmer L G Lazarus, 2023-03-16 Jeffrey Dahmer is one of the most infamous serial killers in modern history. Though he was only active for a few short years, his heinous actions left an indelible mark on the world. Dahmer's grisly list of 17 victims stretched from Milwaukee, Wisconsin all the way to Ohio, and his particular brand of depravity has been a source of fascination for decades. Born in 1960 in Milwaukee, Wisconsin, Dahmer spent most of his early childhood living with his family in the quiet suburbia of Bath Township, Ohio. He was an introverted child, and struggled with bouts of depression throughout his teenage years. Despite his troubling signs of mental illness, it wasn't until he reached adulthood that his true nature began to reveal itself. In late 1978, Dahmer began his first series of killing sprees, which lasted until he was arrested in 1991. Over this 13 year period, he murdered a total of 17 men and boys - many of whom were African-American - whom he had lured back to his apartment or motel rooms. Once there,

Dahmer would use his victims as his own personal experiments; dismembering, preserving, and even eating parts of them. Dahmer was finally apprehended in 1991, after one of his intended victims managed to escape his clutches and alert police. After he was taken into custody and searched, police found an array of gruesome items inside his apartment. These included human skulls, severed limbs, and refrigerator drawers filled with body parts. In 1992, Dahmer was put on trial and quickly found guilty on 15 separate counts of murder. He was eventually sentenced to 15 consecutive life terms - plus a 16th year that was tacked on for good measure - and was sent to prison in Wisconsin, where he spent the remainder of his life. Three years after arriving at the prison, Dahmer was beaten to death by another inmate. Though it may have been 20 years since his death, Jeffrey Dahmer's legacy still looms large over popular culture. His story continues to fascinate and horrify those who come across it, and serve as a reminder of how depraved the human mind can be.

Jeffrey Dahmer Ryan Becker,2017-11-02 Cannibal. Necrophiliac. Kidnapper. Killer. The stories of serial killers often begin with terrible upbringings and sad events of trauma, but not all have such unfortunate beginnings. Some simply develop their evil on their own and become tainted without anyone realizing it. Jeffrey Dahmer was a man described by his own father as the result of a child becoming lost in the maelstrom while nobody paid attention, of a child who was strange and apathetic but who nobody bothered to ask why... ..The results were catastrophic. Seventeen men lost their lives and were defiled even after death because of the desires of a neglected young boy who just wanted to fulfill his needs. The following is the tale of said child, the same young man who grew up to become the infamous Milwaukee Cannibal, one of the worst serial killers in humanity's history. Jeffrey Dahmer: The Gruesome True Story of a Hungry Cannibalistic Rapist and Necrophiliac Serial Killer (Vol 3) is a book that recounts the tale of the Milwaukee Cannibal, a man capable of committing the most truly degrading acts on his victims before and even after death; a man who to his last days - and long after - still haunts the city of Milwaukee with the memories of his horrific murders. Be warned, reader, you aren't just about to read about Jeffrey Dahmer and his acts. You are about to walk into his very mind.

Flesh Collectors Fred Rosen,2015-07-07 The acclaimed true crime author of *Lobster Boy* chronicles the brutal acts and eventual capture of two cannibalistic killers on Florida's Gulf Coast. Jeremiah Rodgers and Jonathan Lawrence met in a Florida hospital for the criminally insane, where both had been serving time for petty crimes. Upon their release, they traveled to Lawrence's hometown of Milton, Florida, where they murdered Justin Livingston, Lawrence's mentally challenged cousin. Their deadly spree continued when they viciously raped and shot 18-year-old Jennifer Robinson and then cannibalized her body. Author Fred Rosen reports on how Detective Todd Hand solved the case and brought justice to the victims' families. Hand had his work cut out for him as there was no clear motive behind these heinous crimes, but during questioning he caught the 2 killers in a lie about Justin Livingston's whereabouts, which led to their arrests. Rodgers and Lawrence now reside on Florida's death row.

Jeffrey Dahmer Chloe Castleden,2011-08-18 Jeffrey Dahmer was the Milwaukee serial killer who murdered, mutilated and cannibalized at least seventeen men and boys between 1978 and 1991. The Murder Files is a series of individual titles, giving condensed accounts of some of the most appalling and notorious killers of all time.

Arthur Shawcross Chloe Castleden,2011-08-18 Curiously for a serial killer and self-proclaimed cannibal, Arthur Shawcross's confessional accounts of his crimes were only partially believed. His stories changed frequently as he spoke with different people and almost everyone who interviewed him thought that he was exaggerating some of the time. So, although teeth marks were found on some of his victims, was the Genesee River Killer telling the truth when he confessed to eating parts of his victims? The Murder Files is a series of individual titles, giving condensed accounts of some of the most appalling and notorious killers of all time.

Raging Cannibal Brian Tucker,2014-11-21 Ottis Toole, born at the bottom of the gene pool, retarded and illiterate, had been out of control since early childhood. A severely drug-dependent individual as well as an arsonist, murderer, rapist, and cannibal, he was unsafe under any conditions outside of a secure prison, and perhaps unsafe there. To him, life itself was so unmeaning, and the distinction between living and dead people so blurred, that killing another human being was no more than swatting an annoying fly. Between 1976 and 1982, together with his serial killer buddy, Henry Lee Lucas, Ottis Toole was reported to have committed over three hundred murders. However, the discrediting of the case against his partner in crime, Henry Lee Lucas, for crimes in which Toole had offered collaborating statements created doubts as to whether either was a genuine serial killer or, both merely compliant interviewees who police used to clear unsolved murders from the books. Now, in RAGING CANNIBAL, a screenplay for film by author Brian Lee Tucker, offers up a totally new glimpse into the life of Ottis Toole, one never shown before, the eyewitness accounts, personal testimony, and never-before-uncovered evidence providing an in depth loom into one of the most notorious serial killers that ever lived, who was dubbed the nick name, 'the cannibal kid.'

Jeffrey Dahmer Jack Rosewood,2017-03-27 Few serial killers in history have garnered as much attention as Jeffrey Lionel Dahmer. Although Dahmer killed seventeen young men and boys, it was not so much the number of people he killed that makes him stand out among famous serial killers, but more so the acts of depravity that he committed on the corpses of his victims. In this true crime story you will read how Dahmer transitioned from a loner to serial killer, committing numerous unnatural acts along the way such as necrophilia and cannibalism. Following in the macabre tradition of another infamous Wisconsin serial killer-Ed Gein-Jeffrey Dahmer terrorized Milwaukee for most of the 1980s until he was finally captured in 1991. Perhaps one of the most frightening aspects of Jeffrey Dahmer's serial killer career was how easy he was able to lure his victims into his trap. Dahmer possessed above average intellect, was conventionally good looking, and usually had a calm demeanor that could disarm even the most paranoid of people. Because of these traits, Dahmer was able to evade justice numerous times, which allowed him to keep killing. Truly, Dahmer was able to fool his family, the police, his neighbors, and even the judicial system into believing that he was not a threat; but during the entire time his kill count increased and the body parts of his victims began to pile up around his apartment. Open the pages of this book to read a story that is among the most disturbing of all true crime serial killers. You will follow the course of Dahmer's life from an alcoholic outcast in high school to a vicious predator who stalked the streets of Milwaukee. Finally, you will read about Dahmer's trial, his jail house murder, and the impact that his many crimes had on Milwaukee.

Cannibal Killers Chloe Castleden,2022-03-15 Cannibalism is perhaps the most repugnant of all crimes against human beings. It has long been a taboo subject, with even the tabloid press shying away from publishing precise details of cannibal crimes. When Albert Fish kidnapped, killed, and consumed ten-year-old Grace Budd in New York in 1928, he went to great pains to assure her parents, in a letter he wrote six years later that brought about his arrest, that he had not sexually assaulted her. But at the time, the court portrayed Fish as a sexually motivated criminal rather than as a cannibal. Yet, sexual depravity and cannibalism are far from being mutually exclusive. Andrei Chikatilo, the Butcher of Rostov, is proof of that, having eaten parts of the sexual organs of some of his fifty-six victims. Tsutomu Miyazaki, the Japanese Dracula, murdered little girls, molested their corpses, and drank their blood. These and many other cases, including those of Jeffrey Dahmer, Edmund Kemper, Joachim Kroll (the Duisburg Man Eater), and

Daniel Rakowitz—who murdered his roommate and made soup from her brains—are studied in chilling detail.

Depraved Harold Schechter, 1994 Even as a child in Gilmanton, New Hampshire, Herman Mudgett was considered a lad with a future, a boy who professed filial devotion while secretly fantasizing his parents' deaths. By age eleven he was conducting secret experiments on small animals and strays, becoming skilled at disabling his subjects without killing them. In 1886 he appeared in the Chicago suburb of Englewood, Illinois, and introduced himself as Dr. H. H. Holmes to the wife of the ailing owner of Holton's drugstore. He was hired on the spot, and under his management the store prospered. But when Holmes's attempt to purchase the drugstore from Mrs. Holton went sour, and she sued him, she inexplicably disappeared - never to be seen or heard from again. As Jack the Ripper was terrorizing London, Holmes was building his infamous Castle, a grandiose residence and veritable fortress bristling with battlements and turrets. He hired and fired a succession of workmen to build the castle, thus eliminating witnesses to its secrets: a labyrinth of trapdoors, winding passageways, dark dead-end halls, stairways to nowhere, bedchambers fitted with peepholes and asphyxiating gas pipes, soundproof vaults and torture chambers, greased chutes large enough to send human bodies from the living quarters to a cellar equipped with acid vats, a crematorium, a dissecting table, and cases full of gleaming surgical tools. Alternately donning the mantles of doctor, druggist and inventor, Holmes was also a get-rich-quick schemer and bigamist, with three wives and innumerable lovers - at least one of whom ended up a prize skeletal specimen, sold to a medical college for nearly two hundred dollars. But his increasing audacity and carelessness during his reign of terror led to his discovery and to The Trial of the Century, in which Holmes finally confessed to twenty-seven murders. While he later recanted - maintaining his innocence until his final breath - he had already achieved immortality as the most monstrous criminal of his day.--BOOK JACKET.
