Mindjammer Sarah Newton,2012-08-09 IT IS THE SECOND AGE OF SPACE... In the seventeenth millennium, the New Commonality of Humankind is expanding, using newly-discovered faster-than-light travel to rediscover lost worlds colonised in the distant past. It's a time of turmoil, of clashing cultures, as civilisations shudder and collapse before the might of a benevolent empire ten millennia old. In the Solenine Cluster, things are going from bad to worse, as hyper-advanced technologies destabilise a world in chaos. Thaddeus Clay and his SCI Force special ops team are on the trail of the Transmigration Heresy. What they find is something beyond even their imagining - something which could tear the whole Commonality apart... Thrilling adventure and mystery wrapped up with an inventive, mind-bending look at mankind's future. - Howard Andrew Jones, author of *The Desert of Souls* Science fiction like this never dies. - Chris Helton, *Dorkland Complex*, gripping... the most original sci-fi you're likely to get... - *G*M*S Magazine* a very exciting and intelligently-written novel that should be on the reading list of every SF fan! - *Stargazer's World* William Gibson-like in the intensity of the ideas it introduces... a heady mixture of action, crunchy science fiction elements and that perennial cyberpunk or transhuman question: what does human mean? - *Shores of Night*

Principles of Capitalization James L. Atkinson, ...explores the theory and practical application of the fundamental principles determining whether an expenditure may be currently deducted as an ordinary and necessary business expense or whether instead it must be capitalized and recovered through another tax accounting mechanism, such as depreciation. Other Tax Management Portfolios provide in-depth analysis of the Uniform Capitalization Rules of §263A. This Portfolio instead focuses upon the more traditional capitalization principles underlying §263(a), the decades of case law interpreting those principles, and the government's recent efforts to rationalize this area through the issuance of regulations.
