Mythos and Logos ,2021-12-28 This book contains fifteen essays all seeking to regain the original meaning of philosophy as the love of wisdom. Mythos and Logos are two essential aspects of a quest that began with the ancient Greeks. As concepts fundamental to human experience, Mythos and Logos continue to guide the search for truth in the twenty-first century.

Rereading the Sophists Susan C. Jarratt,1998 In rereading the sophists of fifth-century Greece, Susan C. Jarratt reinterprets classical rhetoric, with implications for current theory in rhetoric and composition. -- Provided by publisher

The Art of Rhetoric Aristotle,2020-10-16 'Moral character, so to say, constitutes the most effective means of proof.' In ancient Greece, rhetoric was at the centre of public life. Many writers attempted to provide manuals to help improve debating skills, but it was not until Aristotle produced *The Art of Rhetoric* in the 4th century bc that the subject had a true masterpiece. As he considered the role of emotion, reason, and morality in speech, Aristotle created essential guidelines for argument and prose style that would influence writers for more than two millennia. Brilliantly explained and carefully reasoned, *The Art of Rhetoric* remains as relevant today as it was in the assemblies of ancient Athens.

On the rhetoric of GMOs. Ethos, Logos and Pathos Guenther Klein,2016-02-01 Essay from the year 2015 in the subject Business economics - Business Management, Corporate Governance, grade: 2, Dongbei University of Finance and Economics, language: English, abstract: This essay is meant to introduce the reader to the use of rhetoric when it comes to influence a process or persuade an audience to follow the rhetor's idea. The example of the introduction of a GMO (genetic modified organism) is used as a vivid and real life case, where different stakeholders try to influence and give the general narrative a new spin. A rather rich bibliography offers plenty options to dig

deeper and gain a better understanding of “Ethos”, “Logos” and last but not least “Pathos”.

Stolen Focus Johann Hari, 2022-01-25 NEW YORK TIMES BESTSELLER • Our ability to pay attention is collapsing. From the author of *Chasing the Scream* and *Lost Connections* comes a groundbreaking examination of why this is happening—and how to get our attention back. “The book the world needs in order to win the war on distraction.”—Adam Grant, author of *Think Again* “Read this book to save your mind.”—Susan Cain, author of *Quiet* WINNER OF THE PORCHLIGHT BUSINESS BOOK AWARD • ONE OF THE BEST BOOKS OF THE YEAR: *The Wall Street Journal*, *Financial Times*, *New York Post*, *Mashable*, *Mindful In the United States*, teenagers can focus on one task for only sixty-five seconds at a time, and office workers average only three minutes. Like so many of us, Johann Hari was finding that constantly switching from device to device and tab to tab was a diminishing and depressing way to live. He tried all sorts of self-help solutions—even abandoning his phone for three months—but nothing seemed to work. So Hari went on an epic journey across the world to interview the leading experts on human attention—and he discovered that everything we think we know about this crisis is wrong. We think our inability to focus is a personal failure to exert enough willpower over our devices. The truth is even more disturbing: our focus has been stolen by powerful external forces that have left us uniquely vulnerable to corporations determined to raid our attention for profit. Hari found that there are twelve deep causes of this crisis, from the decline of mind-wandering to rising pollution, all of which have robbed some of our attention. In *Stolen Focus*, he introduces readers to Silicon Valley dissidents who learned to hack human attention, and veterinarians who diagnose dogs with ADHD. He explores a favela in Rio de Janeiro where everyone lost their attention in a particularly surreal way, and an office in New Zealand that discovered a remarkable technique to restore

workers' productivity. Crucially, Hari learned how we can reclaim our focus—as individuals, and as a society—if we are determined to fight for it. *Stolen Focus* will transform the debate about attention and finally show us how to get it back.

Paradigm, Logos, and Myth in Plato's Sophist and Statesman Conor Barry, 2022-10-25 This book explores the uses of the term “paradigm” with respect to both logos and myth in Plato, with a focus on *Sophist* and *Statesman*. In so doing, Conor Barry argues for a unitary as opposed to a developmental conception of Plato's dialogues.

Forcing the Spring Jo Becker, 2015-05-19 A New York Times Notable Book of the Year | A Washington Post Best Book of the Year “[A] riveting legal drama, a snapshot in time, when the gay rights movement altered course and public opinion shifted with the speed of a bullet train... Becker’s most remarkable accomplishment is to weave a spellbinder of a tale that, despite a finale reported around the world, manages to keep readers gripped until the very end.” - The Washington Post A

groundbreaking work of reportage by Pulitzer Prize-winning journalist Jo Becker, *Forcing the Spring* is the definitive account of five remarkable years in American civil rights history, when the United States experienced a tectonic shift on the issue of marriage equality. Focusing on the historic legal challenge of California's ban on same-sex marriage, Becker offers a gripping, behind-the-scenes narrative told with the lightning pace of a great legal thriller. Taking the reader from the Oval Office to the Supreme Court ruling, from state-by-state campaigns to an astounding shift in national public opinion, *Forcing the Spring* is political and legal journalism at its finest.

The Poetics of Aristotle Aristotle, 2017-03-07 In it, Aristotle offers an account of what he calls poetry (a term which in Greek literally means making and in this context includes drama - comedy, tragedy, and the satyr play - as well as lyric poetry and epic poetry). They are similar in the fact that they are all imitations but different in the three ways that Aristotle describes: 1. Differences in music rhythm, harmony, meter and melody. 2. Difference of goodness in the characters. 3. Difference in how the narrative is presented: telling a story or acting it out. In examining its first principles, Aristotle finds two: 1) imitation and 2) genres and other concepts by which that of truth is applied/revealed in the poesis. His analysis of tragedy constitutes the core of the discussion. Although Aristotle's *Poetics* is universally acknowledged in the Western critical tradition, almost every detail about his seminal work has aroused divergent opinions.

About Writing Robin Jeffrey, 2016

Angels Town Ralph Cintron, 1998-11-01 As issues of power and social order loom large in Angelstown, Ralph Cintron shows how eruptions on the margins of the community are emblematic of a deeper disorder. In their language and images, the members of a Latino community in a midsized American city create self-respect under conditions of disrespect. Cintron's innovative

ethnography offers a beautiful portrait of a struggling Mexican-American community and shows how people (including ethnographers) make sense of their lives through cultural forms.

Networked Media, Networked Rhetorics Damien Smith Pfister, 2014-10-24 In *Networked Media, Networked Rhetorics*, Damien Pfister explores communicative practices in networked media environments, analyzing, in particular, how the blogosphere has changed the conduct and coverage of public debate. Pfister shows how the late modern imaginary was susceptible to “deliberation traps” related to invention, emotion, and expertise, and how bloggers have played a role in helping contemporary public deliberation evade these traps. Three case studies at the heart of *Networked Media, Networked Rhetorics* show how new intermediaries, including bloggers, generate publicity, solidarity, and translation in the networked public sphere. Bloggers “flooding the zone” in the wake of Trent Lott’s controversial toast to Strom Thurmond in 2002 demonstrated their ability to invent and circulate novel arguments; the pre-2003 invasion reports from the “Baghdad blogger” illustrated how solidarity is built through affective connections; and the science blog RealClimate continues to serve as a rapid-response site for the translation of expert claims for public audiences. *Networked Media, Networked Rhetorics* concludes with a bold outline for rhetorical studies after the internet.

Michael Osborn on Metaphor and Style Michael Osborn,2018-07-01 This volume features two dimensions of Michael Osborn's work with rhetorical metaphor. The first focuses on his early efforts to develop a conception of metaphor to advance the understanding of rhetoric, while the second concerns more recent efforts to apply this enriched conception in the analysis and criticism of significant rhetorical practice. The older emphasis features four of Osborn's more prominent published essays, revealing the personal context in which they were generated, their strengths and shortcomings, and how they may have inspired the work of others. His more recent unpublished work analyzes patterns of metaphor in the major speeches of Demosthenes, the evolution of metaphors of illness and cure in speeches across several millennia, the exploitation of the birth-death-rebirth metaphor in Riefenstahl's masterpiece of Nazi propaganda *Triumph of the Will*, and the contrasting forms of spatial imagery in the speeches of Edmund Burke and Barack

Obama and what these contrasts may portend.

Invention in Rhetoric and Composition Janice M.

Lauer, 2004 *Invention in Rhetoric and Composition* examines issues that have surrounded historical and contemporary theories and pedagogies of rhetorical invention, citing a wide array of positions on these issues in both primary rhetorical texts and secondary interpretations. It presents theoretical disagreements over the nature, purpose, and epistemology of invention and pedagogical debates over such issues as the relative importance of art, talent, imitation, and practice in teaching discourse. After a discussion of treatments of invention from the Sophists to the nineteenth century, *Invention in Rhetoric and Composition* introduces a range of early twentieth-century multidisciplinary theories and calls for invention's awakening in the field of English studies. It then showcases inventional theories and pedagogies that have emerged in the field of Rhetoric and Composition over the last four decades, including the ensuing research, critiques, and implementations of this inventional work. As a reference guide, the text offers a glossary of terms, an annotated bibliography of selected texts, and an extensive bibliography. Janice M. Lauer is Professor of English, Emerita at Purdue University, where she was the Reece McGee Distinguished Professor of English. In 1998, she received the College Composition and Communication Conference's Exemplar Award. Her publications include *Four Worlds of Writing: Inquiry and Action in Context*, *Composition Research: Empirical Designs*, and *New Perspectives on Rhetorical Invention*, as well as essays on rhetorical invention, disciplinarity, writing as inquiry, composition pedagogy, historical rhetoric, and empirical research.

Video Rhetorics John S. Nelson, George Robert Boynton, 1997

The aim of this book is to teach us how to better understand political ads (telespots) by attuning ourselves to their video rhetoric--their themes and stories, atmosphere and characterization, feelings and images, and their use of popular

genres--from film to fiction, from MTV to game shows. Video Rhetorics is both a call for, and an example of, a new kind of political analysis. Supplemented with Hot Spots: Multimedia Analyses of Political Ads, a sixty-minute video of multimedia advertising studies, the book presents lucid analyses of particular campaign ads to illustrate how music, text, metaphor, genre, image, color, delivery, tempo, and location all combine to orchestrate political meaning. The authors also show readers how to comprehend dynamics of contemporary political life that remain mysterious within traditional accounts of how citizens learn about politics. In the authors' view, electronic politics is here to stay, like it or not, and we cannot afford simply to dismiss or condemn political ads.
