Teaching Parents of Young Children Laura L. Wetzel,1996
Teaching Parents of Young Children compiles the basic information that all parents need to know and, using a developmental approach, organizes it over 12 sessions to help parents understand and relate appropriately to child behavior at different ages and stages of development. Designed to be used by anyone interested in conducting parenting classes, the Teaching Parents of Young Children curriculum comprises a Leader's Manual and the Parent Power Pages. Part I and the Leader's Notes in the Leader's Manual detail the strategies and dynamics specific to leading a parenting group. The Parent Power Pages offer a quick review of the material covered in class along with supplemental information. Working through the material, parents gain new insight and understanding into effective childrearing, and improve their ability to communicate, discipline, build self-esteem, and more.

Discipline That Connects With Your Child's Heart Jim Jackson, Lynne Jackson, 2016-09-20 A Powerful Approach to Bringing God's Grace to Kids Did you know that the way we deal (or don't deal) with our kids' misbehavior shapes their beliefs about themselves, the world, and God? Therefore it's vital to connect with their hearts--not just their minds--amid the daily behavior battles. With warmth and grace, Jim and Lynne Jackson, founders of Connected Families, offer four tried-and-true keys to handling any behavioral issues with love, truth, and authority. You will learn practical ways to communicate messages of grace and truth, how to discipline in a way that motivates your child, and how to keep your relationship strong, not antagonistic. Discipline is more than just a short-term attempt to modify your child's actions--it's a long-term investment to help them build faith, wisdom, and character for life. When you discover a better path to discipline, you'll find a more well-behaved--and well-believed--kid.

Voice Lessons for Parents Wendy Mogel, 2019-04-09 New York Times bestselling author Dr. Wendy Mogel "teaches parents the dialect needed to converse with their daughters and sons at every stage of life. It's kind and loving, but it's also strategic"

(Chicago Tribune). Most parents are perfectly fine communicators—unless they’re talking to their children. Then, too often, their pitch rises and they come across as pleading, indignant, wounded, outraged. In tone and body language they signal, I can’t handle it when you act like a child. Dr. Wendy Mogel, “one of the most astute psychologists on the planet (Angela Duckworth, New York Times bestselling author of Grit) saw this pattern time and again in her clinical practice. In response, she developed a remarkably effective series of “voice lessons,” which she shared with parents who were struggling with their kids. The results were immediate: a shift in vocal style led to children who were calmer, listened more attentively, and communicated with more warmth, respect, and sincerity. In *Voice Lessons for Parents*, Mogel elaborates on her novel clinical approach, revealing how each age and stage of a child’s life brings new opportunities to connect through language. Drawing from sources as diverse as neuroscience, fairy tales, and anthropology, Mogel offers specific guidance for talking to children across the expanse of childhood and adolescence. She also explains the best ways to talk about your child to partners, exes, and grandparents, as well as to teachers, coaches, and caretakers. Throughout the book, Mogel addresses the distraction of digital devices—how they impact our connection with our families, and what we can do about it. “In this intelligent and useful book, Wendy Mogel explains how the tenor of your remarks may make as much difference as their content...and shows how minor adjustments may help lower the inherent tension of parent-child relationships” (Andrew Solomon, bestselling author of *Far From the Tree*).
