**The Lifegiving Parent** Sally Clarkson,Clay Clarkson,2018-05-01 From the family that brought you *The Lifegiving Home* and *The Lifegiving Table*, discover how you can become a parent who gives your child a life worth living for Christ. In today's world, it's easy to become overwhelmed and even paralyzed by the constant flow of parenting advice. We're flooded with so much practical information

that we wonder if we're choosing the right way. And we may be missing the one thing God really wants us to give to our children: His life. God doesn't include a divine methodology for parenting in the Bible, but He does provide principles that can enable any faithful parent to bring His life into the life of their home. In *The Lifegiving Parent*, respected authors and parents Clay and Sally Clarkson explore eight key principles—heartbeats of lifegiving parenting—to shed light on what it means to create a home where your children will experience the living God in your family. Now parents of four grown children—each with their own unique personality and gifts—Sally and Clay have learned (sometimes the hard way!) that the key to shaping a heart begins at home as you foster a deep and thoughtful God-infused relationship with each child. Filled with biblical insight and classic Clarkson stories, *The Lifegiving Parent* will equip you with the tools and wisdom you need to give your children much more than just a good Christian life. You'll give them the life of Christ. (Don't miss the companion piece, *The Lifegiving Parent Experience!*)

**Learn French Beading: Beginner Course** Lauren Harpster,2020-02-12 French Beading is a bead-and-wire art from the Renaissance used primarily to make flowers. Learn the art from designer Lauren Harpster in this new publication made specifically for beginners who've never touched beads or wire, but is also an excellent resource for experienced French Beading artists. This title is a hard copy of my

Learn French Beading: Beginner Course video series on YouTube. Instructions for accessing the videos are included inside the book (Videos will be available after Feb 29th). \*Part 1 is the Getting Started guide. Before making French Beaded Flowers it is very important to understand the materials needed to make them. This section explores tools, beads, wire, and other supplies in detail, though not all of them will be necessary for this course. \*Part 2 is the Technique Guide, which contains six lessons that teach the techniques included in this course - Continuous Loops, Continuous Crossover Loops, Continuous Wraparound Loops, Fringe, Basic Frame, and Lacing. These lessons are important for learning French Beading terms and abbreviations, and how to read French Beading patterns. I like to teach techniques separately from flower patterns because there's so much more I can teach you about an individual technique than what I can cover in a single flower pattern. There are also some variations of the techniques that are not used in the practice patterns, but are included for education and reference. This section is also intended to be a one-stop technique reference so you can quickly look up specific techniques while working with other flower patterns. Each lesson has a video

demonstration so you can see the techniques in action, but they also contain picture and written instructions for the techniques. \*Part 3 contains four wildflower patterns that I've developed specifically for helping you practice the base techniques learned in Part 2 - Lavender, Dame's Rocket, Blue Virgin's Bower, and Black-Eyed Susan. The patterns have been written with beginners in mind and contain a high level of detail, so they're a great way to dip your toes into the art. This section is important for seeing practical application of the techniques, reinforcing the ability to read patterns, and learning how to assemble and shape a variety of flowers. I have also made video demonstrations of each of the flowers. While I demonstrate flower parts fully in the videos, I only show techniques as they are used in that particular flower. So you can start with Part 3 if you use the videos, but I do recommend that you go back through the lessons in Part 2. \*Part 4 will demonstrate how to arrange the flowers from Part 3 to make a wildflower arrangement. I am not a professional florist, but I'd like to share what I've learned about arranging beaded flowers. This section is included only in the book version of the course.
