The Case for Marriage Linda Waite, Maggie Gallagher, 2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced— physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and commonsensical." -- William J. Bennett, author of The Book of Virtues "Makes the absolutely critical point that marriage has been misrepresented and misunderstood." -- The Wall Street Journal

Ibrahim & Reenie David Llewellyn, 2013-09-15 Ibrahim is a young Muslim guy walking from Cardiff to London. He has

his own reasons, and his own mental and physical struggles to deal with along the way. What he hadn't counted on was a chance meeting with 75-year-old East Londoner Reenie before he's hardly started. With her life's luggage in a shopping trolley, complete with an orange tent and her pet cockatiel, Reenie is also walking the M4, and not for charity. As they share a journey their paths stretch out before and behind them into the personal and political turns of European history in ways neither could have foreseen. An impressive and daringly human book from novelist David Llewellyn.

Strategic Latency Unleashed Zachary Davis, Frank Gac, Philip Reiner, Christopher Rager, Jennifer Snow, 2021-01-30 The world is being transformed physically and politically. Technology is the handmaiden of much of this change. But since the current sweep of global change is transforming the face of warfare, Special Operations Forces (SOF) must adapt to these circumstances. Fortunately, adaptation is in the SOF DNA. This book examines the changes affecting SOF and offers possible solutions to the complexities that are challenging many long-held assumptions. The chapters explore what has changed, what stays the same, and what it all means for U.S. SOF. The authors are a mix of leading experts in technology, business, policy, intelligence, and geopolitics, partnered with experienced special operators who either cowrote the chapters or reviewed them to ensure accuracy and relevance for SOF. Our goal is to provide insights into the changes around us and generate ideas about how SOF can adapt and succeed in the emerging operational environment.

Zoopoetics Aaron M. Moe, 2013-12-19 *Zoopoetics* assumes Aristotle was right. The general origin of poetry resides, in part, in the instinct to imitate. But it is an innovative imitation. An exploration of the oeuvres of Walt Whitman, E. E. Cummings, W. S. Merwin, and Brenda Hillman reveals the many places where an imitation of another species' poesis (Greek, makings) contributes to breakthroughs in poetic form. However, humans are not the only imitators in the animal kingdom. Other species, too, achieve breakthroughs in their makings through an attentiveness to the ways-of-being of other animals. For this reason, mimic octopi, elephants, beluga whales, and many other species join the exploration of what zoopoetics encompasses. *Zoopoetics* provides further traction for people interested in the possibilities when and where species meet. Gestures are paramount to zoopoetics. Through the interplay of gestures, the human/animal/textual spheres merge making it possible to recognize how actual, biological animals impact the material makings of poetry. Moreover, as many species are makers, zoopoetics expands the poetic tradition to include nonhuman poesis.

Strategic Public Relations Leadership Anne Gregory, Paul Willis, 2022-07-22 Public relations professionals are operating in an increasingly challenging and complex environment. Pressures from outside the organisation include new accountabilities, empowered stakeholders, increased public cynicism and a new communication landscape. Internally, there are increasing demands to demonstrate a strategic contribution, alongside a requirement to coach and counsel senior managers exposed to these environmental pressures. This revised and updated edition provides a framework to enable public relations professionals to clearly articulate and demonstrate their own contribution to organisational effectiveness, while also setting out the specific capabilities public relations leaders must exhibit to operate at the highest levels of the organisation. This edition further develops the pioneering approach to integrating thinking around public relations, leadership, and strategy. It has been updated comprehensively to address contemporary developments and introduce new research and fresh perspectives from the authors. New to this edition are insights from Chief Executives on what they expect from public relations leaders and a comprehensive set of capabilities which scope the demanding role of professionals at the top of their game. Concise and practical, this textbook is suitable for MBA and other postgraduate and executive education qualifications in Public Relations and Corporate Communications – especially for those students who wish to pursue a successful career as a professional public relations specialist, able to operate strategically at the top of successful organisations.

The Drug War in Mexico David A. Shirk, 2011 The drug war in Mexico has caused some U.S. analysts to view Mexico as a failed or failing state. While these fears are exaggerated, the problems of widespread crime and violence, government corruption, and inadequate access to justice pose grave challenges for the Mexican state. The Obama administration has therefore affirmed its commitment to assist Mexico through continued bilateral collaboration, funding for judicial and security sector reform, and building resilient communities. David A. Shirk analyzes the drug war in Mexico, explores Mexico's capacities and limitations, examines the factors that have undermined effective state performance, assesses the prospects for U.S. support to strengthen critical state institutions, and offers recommendations for reducing the potential of state failure. He argues that the United States should help Mexico address its pressing crime and corruption problems by going beyond traditional programs to strengthen the country's judicial and security sector capacity and help it build stronger political institutions, a more robust economy, and a thriving civil society.
