Education in an Era of Schooling Christine Edwards-Groves, Peter Grootenboer, Jane Wilkinson, 2018-09-07 This book is a Festschrift for Emeritus Professor Stephen Kemmis, who has a long and eminent career as an educational researcher and academic spanning over 40 years. His work in curriculum, evaluation, critical practice, action research and practice theory has been influential across all continents of the world. The book examines critical perspectives on educational practice and the participatory nature of action research, including practitioner research particularly as undertaken by teachers in schools. Including vignettes from Kemmis' colleagues and mentors, it draws on contributions from a range of academics whose scholarship has been inspired, influenced and initiated by his work. The chapters stem from a range of countries, including Australia, Canada, Finland, weden, the United Kingdom, United States of America, and Trinidad and Tobago - a testimony to the enduring and global legacy of Kemmis' scholarship. Contributing authors include leading educational research scholars, indigenous elders from Australia, and community leaders concerned with environmental sustainability. The concluding focus of this book turns towards practice theory. Kemmis' later work led to the development of the theory of practice architectures and gave rise to the development of the theory of ecologies of practices in education. Research drawing on the theory of practice architectures and ecologies of practices resulted in the leading text "Changing practices, changing education" (Kemmis, Wilkinson, Edwards-Groves, Hardy, Grootenboer & Bristol, 2014, Springer) that reports on an Australian investigation of the ecological relationship between student learning, teaching, professional learning, leading and researching practices. This theory is now being applied to study practices across a wide range of international contexts, sites and disciplines including early childhood, school education, university education, vocational education and training, community environment, indigenous cultural sustainability and health.

Creative Care Anne Basting, 2020-05-19 A MacArthur Genius Grant recipient pioneers a radical change in how we interact with older loved ones, especially those experiencing dementia, as she introduces a proven method that uses the creative arts to bring light and joy to the lives of elders. In *Creative Care*, Anne Basting lays the groundwork for a widespread transformation in our approach to elder care and uses compelling, touching stories to inspire and guide us all--family, friends, and health professionals--in how to connect and interact with those living with dementia. A MacArthur Genius Grant recipient, Basting tells the story of how she pioneered a radical change in how we interact with our older loved ones. Now used around the world, this proven method has brought light and joy to the lives of elders--and those who care for them. Here, for the first time, everyone can learn these methods. Early in her career, Basting noticed a problem: today's elderly--especially those experiencing

dementia and Alzheimer's— are often isolated in nursing homes or segregated in elder-care settings, making the final years of life feel lonely and devoid of meaning. To alleviate their sense of aloneness, Basting developed a radical approach that combines methods from the world of theater and improvisation with evidence-based therapies that connect people using their own creativity and imagination. Rooted in twenty-five years of research, these new techniques draw on core creative exercises—such as “Yes, and . . .” and “Beautiful Questions.” This approach fosters storytelling and active listening, allowing elders to freely share ideas and stories without worrying about getting the details “correct.” Basting’s research has shown that these practices stimulate the brain and awaken the imagination to add wonder and awe to patients’ daily lives—and provide them a means of connection, both with the world and with those caring for them. Creative Care promises to bring light and hope to a community that needs it most.

Harry Hunt Ransom Alan Gribben, 2010-01-01 Both a life story and a portrait of public higher education during the twentieth century, Harry Hunt Ransom captures the spirit of a dynamic individual who dedicated his talents to nurturing intellectual life in Texas and beyond. Tracing the details of Ransom's youth in Galveston and Tennessee and his education at Yale, where he earned a doctorate, Alan Gribben provides new insight into the factors that shaped Ransom's future as a renowned administrator and defender of the humanities. Ransom's career at the University of Texas began in 1935, when he was hired as an instructor of English. He rose through the ranks to become chancellor, stepping down in 1971 during a volatile period when debates about the University's central mission raged—particularly over the question of commercializing higher education. The development of Ransom's lasting legacy, the Humanities Research Center bearing his name, is explored in depth as well. Bringing to life a legendary figure, Harry Hunt Ransom is a colorful testament to a singular man of letters who had the audacity to propose that there be established somewhere in Texas—let's say in the capital city—a center of our cultural compass, a research center to be the Bibliothèque Nationale of the only state that started out as an independent nation.
